GREEKS AND BULGARIANS BATTLE ON FRONTIER

Fall of Petrich Imminent Though Defending Forces Offer Stubborn Resistance

[BY CABLE AND ASSOCIATED PRESS]
VIENNA, Oct. 23.—(12:40 a.m.) The latest advices received here from Sofia regarding the Greco-Bulgarian affair say that the Greeks are advancing rapidly and that the main body of them already has penetrated ten miles into Bulgarian territory. The advance was prepared for by heavy artillery fire and airplane bombing.

ATHENS, Oct. 22.—Greek and Bulgarian soldiers are engaged in battle on the Macedonian frontier. The Greek command is making an encircling movement on the heights around the town of Petrich, about twenty miles to the northwest of Demirhisar, where the first clash between Greek and Bulgarian patrols occurred Monday.

This is the official information given out here, and it is further announced that the Bulgarians have received reinforcements at Demirhisar.

MERGER TO LINK WHOLE OF COUNTRY

Railroad Consolidation Hinted in Petition Filed With Interstate Body

[EXCLUSIVE DISPATCH]
CHICAGO, Oct. 22.—Consolidation of a group of interior line railroad lines into a single transcontinental system linking up Montreal, New York, Pittsburgh and Chicago in direct contact with Texas and Pacific Coast points was predicted here today as a project likely to follow favorable action by the Interstate Commerce Commission on a series of applications filed by L. F. Loree, president of the Missouri and Hudson Railroad Company.

This merger is expected to reach the commission as an "official" proposal in the near future. It will appear as a counter move in the wake of the recent refusal by the commission to approve an application of the same company for permission to build the so-called New York, Pittsburgh and Chicago, a low-grade line traversing Pennsylvania.

Temporary denial of this petition, it seems, was expected by Mr. Loree, who, it is now reported, has asked the commission to reconsider the matter. The preliminary refusal was based on the fact that the proposed line would cross the territory of the Pennsylvania Railroad, which is a rival of the Missouri and Hudson.

In the development of the new system, recent acquisition of Rock Island holdings in the St. Louis Southwestern (Cotton Belt) by the Kansas City Southern, controlled by the Loree-Harriman group, represented a successful consummation of strategy intended to boost these interests into a salient position in southwestern territory.

Connection at Chicago with the so-called Harriman group of western roads and the purchase of a line closing up the gap between Pittsburgh and St. Louis, they point out, would produce a system stretching from the Atlantic to the Pacific Coast.

LEAGUE FIGHT VEIL LIFTED

Late Senator Lodge's Book Blames Unending Stand of Wilson for Defeat in Senate

[BY A. P. NIGHT WIRE]
WASHINGTON, Oct. 22.—The League of Nations fight and the compelling forces underlying it, are described by one of its chief figures, the late Henry Cabot Lodge, in a book entitled, "The Senate and the League of Nations," to be placed on sale tomorrow by Scribner, who holds the copyright.

It discloses for the first time, however, how in March, 1919, Republican leaders, occupied what they thought was a trap to support the League, and on the advice of Elihu Root, Philander Knox and others, Mr. Lodge declined an invitation to advise the Wilson Peace Commission in Paris what changes in the covenant would satisfy the Senate. He replied, instead, that if the President desired to consult the Senate he should call it into session.

ROUND ROBIN FACT
The book also reveals that the celebrated round robin, by which thirty-nine Republican Senators served notice on the peace conference that they could not vote for ratification, first was suggested by the late Senator Brandegee of Connecticut, and was drawn up by the late Senator Knox of Pennsylvania.

Senator Lodge likewise declares that he himself called together the Senate to vote on the League of Nations, and that he was the first to propose that the League be rejected.

He says that the League was rejected because it was a "trap" to support the League, and that the Senate was "betrayed" by the League's supporters.

He also says that the League was rejected because it was a "trap" to support the League, and that the Senate was "betrayed" by the League's supporters.

FLYING SCHOOL Dedication Held by Guggenheim

[BY A. P. NIGHT WIRE]
NEW YORK, Oct. 22.—The school of aeronautics of New York University today was dedicated to the progress of mankind by Daniel Guggenheim, namesake, who founded it recently with a gift of \$500,000 in honor of his son, Harry P. Guggenheim, a naval aviator during the war.

The younger Mr. Guggenheim is vice-chairman of the advisory committee which is headed by Orville Wright.

ARMED AUTO TRUCK RAIDED

[BY A. P. NIGHT WIRE]
NEW YORK, Oct. 22.—The use of an armed delivery truck failed today to thwart robbers who held up employees of the New York Steam Corporation and escaped with a pay roll of \$4000.

HINT CAILLAUX TO RESIGN

[BY CABLE—EXCLUSIVE DISPATCH]
PARIS, Oct. 22.—The franc continued to hit the toboggan today, closing at 23.19 to a dollar and 113.40 to a pound, marking the lowest level since the menacing Poincaré days a year and a half ago. The slump is attributed to a well-founded idea that Finance Minister Caillaux is going to authorize a bank note inflation. Although official circles greatly regret this, no other alternative is seen in order to meet the immense payments due by the treasury next month and in day to complete their financial program, including legislation for at least limited inflation, which M. Caillaux will present to the Cabinet Monday.

Rumors were current in Paris this morning that M. Caillaux is about to resign from the finance ministry with possibly an official announcement of his retirement tomorrow. The Ministry of Finance this evening officially denied that this evening officially denied that M. Caillaux will quit office, unless Parliament votes against the legislation he asks. If M. Caillaux and his advisers are working desperately night and

DRY NEW YORK EXPORTS WINE
Liquor Bought in America for \$8 Bootlegged to Canada for \$24
(BY A. P. NIGHT WIRE)
HULL, (Que.) Oct. 22.—Two men whom the police accuse of transporting "high wines" from the United States into Canada for sale at a profit were arraigned today on formal charges of being illegally in possession of liquor. Police explain that though it seems like carrying coal to Newcastle, "high wines" can be bought in New York State for \$8 a gallon and sold here for \$24. Police allege that men have been bootlegging wines, containing a high percentage of alcohol, into Quebec from New York by automobile.

FIFTY-FOUR KILLED AT EGYPT FAIR
Fatalities Occur When Police Clear Traffic for Minister in Tanta
(BY CABLE AND ASSOCIATED PRESS)
ISTANBUL, Oct. 22.—A Cairo dispatch to the Exchange Telegraph Company says that fifty-four persons were killed and forty-three injured at Tanta, Egypt, where a great religious fair was being held. It is estimated, by 1,000,000 persons.

**MELLON TELLS
NEW TAX PLAN****Four-Bracket Schedule Now
Hope of Secretary****Finance Chief Declares No
Dictation Tried****Offers Revised Levy Scale as
Improved Method**

(Continued from First Page)

used solely to illustrate a possible action with the plan mentioned by Mr. Mellon.

"The plan has assumed that the Treasury's schedule of rates represents definite Treasury proposals and I am writing you now to assure you that the Treasury has made no change in the position taken in the statement quoted above and does not wish to be understood to be proposing definite rates of tax."

Some partisan exchanges took place among members of the Ways and Means Committee during today's hearing. Democratic members, however, insisted that they propose to co-operate with the Republicans in working out a tax bill in a nonpartisan manner.

REPEAL SIGHT

They hope the Republicans will bar them from admission to executive sessions at which the bill is perfected, as was done in the framing of the 1924 act. Republican members of the committee appear willing that the Democrats shall sit with them, provided they do not show too much partisanship. Under this situation it is expected that there will be no official "Garnier plan" representing the views of all Democratic members of the committee, at least until after a bill which resembles the administrator plan is reported to the House by the Republican majority.

Representatives of the American Bankers' Association appeared before the committee to discuss repeal of the publicity provision of the revenue law, the repeal of the capital stock tax and a reduction from 15 to 10 percent in the rate on corporation earnings. Raymond H. Berry of Detroit spoke for the association on the repeal of the publicity provision. D. Paton, general counsel, presented the views of the association as the subject of corporation taxes.

A committee representing practically all the co-operative associations in the United States and most of the general farm organizations, appeared to ask for clarification of the present Internal Revenue Act, as related to the Farmers' Co-operative Association.

OFFER REMEDY

Through George R. Wicker of Chicago, director of co-operative accounting, Illinois Agricultural Association, the co-operatives contended that Treasury decisions, under the act of 1924 and previous acts have operated to prevent co-operatives from obtaining exemption intended for them by Congress.

To remedy the situation, they offered a draft of proposed amendments to the present act which closely follows the definition of co-operatives as given in the Cooperative Act authorizing such associations to form and do business in interstate and foreign commerce.

Arnold A. Bear, representing the City Club of Chicago, asked that clubs organized for civic purposes be exempt from the tax on dues.

Harold F. Janach of Chicago appeared for the National Association of Mutual Insurance Companies, to ask that local mutual insurance companies be exempt from taxation on income from reinsurance.

**AUTO PRICE CUT DUE
IF WAR TAX REPEALED**

(BY A. P. MONT WIRE)

NEW YORK, Oct. 22.—An average reduction of \$20 on all passenger automobiles and lower delivered prices on all commercial vehicles are promised by spokesmen for the automobile industry if the Federal war excise taxes on motor products are repealed, according to an announcement today by the National Automobile Chamber of Commerce.

Reduced cost to the consumer will be one of the arguments of the automobile industry in hearings on the proposed tax repeal, which will be conducted before the Ways and Means Committee of Congress in Washington beginning Saturday.

The National Automobile Chamber of Commerce made public a letter today in response to a question from L. J. Tabor of the National Orange with headquarters in Columbus, O., in which the question was raised whether the consumer would benefit from the tax repeal or whether the saving would be pocketed by the manufacturer. Every buyer of a motor vehicle will get an immediate price reduction to the full extent of the "war" tax excise taxes on automobiles to the effect were reduced from eighty-four factories making 104 types of vehicles, it was said.

(EXCLUSIVE DISPATCH)

WASHINGTON, Oct. 22.—That Federal estate and State inheritance taxes are a burden on the people, California's leading tax expert declared today.

**McFadden to
Reintroduce
His Bank Bill**

(BY A. P. MONT WIRE)

OMAHA (Neb.) Oct. 22.—The National Bank bill, known as the McFadden bill, defeated in the Senate after passing the House in the last session of Congress, will be reintroduced by Chairman McFadden of the Banking currency committee, J. W. McIntosh, comptroller of the currency, last night told the Nebraska Bankers' Association. Mr. McIntosh declared the bill is designed to strengthen the national banks and modernize their banking powers, at the same time "assuring adherence to that general conservatism which has always characterized the national banking system."

**FLYING TACKLE
OF NO AVAIL****Officer Retains Evidence
Damaging to Father of
Grid Star****RELOIT (Wia.) Oct. 22.—**

Charles Bredek plays football on the Reloit High school team. His father runs a soft drink parlor. Recently the police got the idea the drinks served in Bredek's parlor might not be so "soft."

They raided the place, but as they came in the front door Charles made a flying tackle, scored right then and there, but the officer managed not to fumble the evidence.

Later the officers scored when Bredek, Sr., pleaded guilty when arraigned in court.

taxes are capital levies and Socialistic and that their abandonment was unanimously recommended by the Western States Taxpayers' Conference at Portland, Ore., representing twelve Western States.

The substance of the telegram received by Chairman Green of the House Ways and Means Committee, today from Dr. Milbank Johnson of Los Angeles, president of the Western States Conference and of the California Taxpayers' Association, is that the resolution was discussed extensively before the conference, the intention being that the resolution was not "whipped in" by default, but was regarded as a major and vital issue.

It has been noted in House circles here that the Portland conference was attended by Chairman Madden of the Appropriations Committee and by Representative Hawley of Oregon, vice-chairman of the powerful Ways and Means Committee.

Dr. Johnson's telegram has been filed as part of the official record of the committee's hearings on the revenue bill now under consideration.

The telegram in full is:

"LOS ANGELES, Oct. 21.—The Honorable William R. Green, chairman, Ways and Means Committee, House of Representatives, Washington, D. C.—On August 26, at a conference of the Western States Taxpayers' Association, Portland, Ore., representing Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Texas, Utah, and Wyoming, the following resolution among others was unanimously adopted: That Federal estate and State inheritance taxes are disapproved, except for great emergencies such as war, etc., and that the conference unanimously recommends their abandonment."

"The above resolution was thoroughly discussed upon the floor of the conference, and unanimously passed by the delegates of the twelve States mentioned above."

"I feel that as the people are learning the true disadvantages of the inheritance tax, public sentiment is overwhelmingly in favor of its abandonment as a source of revenue for governmental purposes."

"I trust that this expression of the conference may be brought to the attention of the Ways and Means Committee, to serve such purpose as it may wish in considering this vital question."

MILBANK JOHNSON, president, Western States Taxpayers' Association, and president, California Taxpayers' Association.

**GOVERNORS READY
TO FIGHT ESTATE TAX**

(BY A. P. MONT WIRE)

WASHINGTON, Oct. 22.—Six Governors and the representatives of eleven others, led by Gov. Walker of Georgia, gathered in Washington tonight preparatory to presenting their case against Federal taxation of estates before the Ways and Means Committee.

Tomorrow's session of the committee's tax revision hearings will be devoted chiefly to the Governors who are committed to the principle that if an inheritance tax is to be levied, it should be collected by the States and not by the Federal government.

Gov. Walker, who some time ago convinced the Governors of all States in the interest of the fight against the Federal inheritance tax, has announced receipt of indications of co-operation from thirteen State executives in addition to the seventeen who will appear or be represented before the committee.

In addition to the Georgia executive the Governors likely to appear, include: Pa. of Tennessee; Trinkle of Virginia; McLean of West Virginia; McLeod of South Carolina, and Whitfield of Mississippi.

Representatives of other Governors were named as follows: Lieut. Gov. Nolan of Minnesota; A. C. Bollinger, Tax Commissioner of Illinois; John F. Gilchrist, Tax Commissioner of New York; Henry George of New Mexico; Edwin H. Davitt, Commissioner of Finance of Vermont; R. M. McCluskey, private secretary to Gov. Hunt, Arizona; William Belknap of Kentucky; Lieut. Gov. Kimball of Iowa; J. D. Ray, Tax Commissioner of Maryland; T. H. H. Thorpe of North Dakota; B. W. Rapp, Tax Commissioner of South Dakota.

**INTERIOR CHIEF
CITES PROBLEM****Reclamation Project Ills
Detailed by Work****Need of Settlers Stressed by
Secretary****Says Boulder Dam Scheme
Study Essential**

(BY A. P. MONT WIRE)

WASHINGTON, Oct. 22.—The problem of obtaining settlers for government reclamation projects was declared by Secretary Work in reviewing his department for 1932, to be the most difficult of all reclamation problems. He pointed out that the consensus is that construction of new work should be deferred until this question is solved.

"The essential part of the Federal reclamation policy of the future," said Mr. Work, "is a program of land settlement and farm development. Unless settlers can be attracted to the projects and are able to remain on them, there is no reason for building them, and the Government is not justified in expending its money for their cost. The Government constructs irrigation projects to enable settlers to farm, and the solution of the settlement problem is co-operation between the Federal government and the States in which the projects are located, the States to assume the responsibility of settlement."

taxes are capital levies and Socialistic and that their abandonment was unanimously recommended by the Western States Taxpayers' Conference at Portland, Ore., representing twelve Western States.

Whoopies Meet****Woman Seated With Braves
for First Time****Land Rights Discussed at
Bay City Gathering**

(EXCLUSIVE DISPATCH)

SAN FRANCISCO, Oct. 22.—Without war paint, without feathers, without beads and without even a single whoop, twenty Indians, representing 20,000 followers, met here today in an official pow-wow to consider the problems of their race.

The fifth annual conference, this year, is the first time that a woman has been permitted to sit on equal terms as a delegate. Mrs. S. A. Sorahan of Susanville, was granted that privilege today and admitted as a delegate from the second district.

Land rights, which are agitating the Indian population of the West, received first consideration today. Attorney J. W. Henderson, who is representing the Indian Board of Co-operation in its suit brought in the name of Benjamin Wilder, president of the convention, as a member of the Karok tribe, indigenous to Humboldt and Siskiyou counties, addressed the delegates at length upon their legal position.

"Indians of California are in a somewhat different position than those of other sections of the country," he said. "They, for the most part, have not been placed upon reservations, but have remained as individual settlers. The land they occupy they have held under three governments, the Spanish, the Mexican and that of the United States. It is upon that old tribal law which we are now endeavoring to secure a legal right."

taxes are capital levies and Socialistic and that their abandonment was unanimously recommended by the Western States Taxpayers' Conference at Portland, Ore., representing twelve Western States.

The substance of the telegram received by Chairman Green of the House Ways and Means Committee, today from Dr. Milbank Johnson of Los Angeles, president of the Western States Conference and of the California Taxpayers' Association, is that the resolution was discussed extensively before the conference, the intention being that the resolution was not "whipped in" by default, but was regarded as a major and vital issue.

It has been noted in House circles here that the Portland conference was attended by Chairman Madden of the Appropriations Committee and by Representative Hawley of Oregon, vice-chairman of the powerful Ways and Means Committee.

Dr. Johnson's telegram has been filed as part of the official record of the committee's hearings on the revenue bill now under consideration.

The telegram in full is:

"LOS ANGELES, Oct. 21.—The Honorable William R. Green, chairman, Ways and Means Committee, House of Representatives, Washington, D. C.—On August 26, at a conference of the Western States Taxpayers' Association, Portland, Ore., representing Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Texas, Utah, and Wyoming, the following resolution among others was unanimously adopted: That Federal estate and State inheritance taxes are disapproved, except for great emergencies such as war, etc., and that the conference unanimously recommends their abandonment."

"The above resolution was thoroughly discussed upon the floor of the conference, and unanimously passed by the delegates of the twelve States mentioned above."

"I feel that as the people are learning the true disadvantages of the inheritance tax, public sentiment is overwhelmingly in favor of its abandonment as a source of revenue for governmental purposes."

"I trust that this expression of the conference may be brought to the attention of the Ways and Means Committee, to serve such purpose as it may wish in considering this vital question."

MILBANK JOHNSON, president, Western States Taxpayers' Association, and president, California Taxpayers' Association.

**GOVERNORS READY
TO FIGHT ESTATE TAX**

(BY A. P. MONT WIRE)

WASHINGTON, Oct. 22.—Six Governors and the representatives of eleven others, led by Gov. Walker of Georgia, gathered in Washington tonight preparatory to presenting their case against Federal taxation of estates before the Ways and Means Committee.

Tomorrow's session of the committee's tax revision hearings will be devoted chiefly to the Governors who are committed to the principle that if an inheritance tax is to be levied, it should be collected by the States and not by the Federal government.

Gov. Walker, who some time ago convinced the Governors of all States in the interest of the fight against the Federal inheritance tax, has announced receipt of indications of co-operation from thirteen State executives in addition to the seventeen who will appear or be represented before the committee.

In addition to the Georgia executive the Governors likely to appear, include: Pa. of Tennessee; Trinkle of Virginia; McLean of West Virginia; McLeod of South Carolina, and Whitfield of Mississippi.

**McFadden to
Reintroduce
His Bank Bill**

(BY A. P. MONT WIRE)

OMAHA (Neb.) Oct. 22.—The National Bank bill, known as the McFadden bill, defeated in the Senate after passing the House in the last session of Congress, will be reintroduced by Chairman McFadden of the Banking currency committee, J. W. McIntosh, comptroller of the currency, last night told the Nebraska Bankers' Association. Mr. McIntosh declared the bill is designed to strengthen the national banks and modernize their banking powers, at the same time "assuring adherence to that general conservatism which has always characterized the national banking system."

MAY BREAK PLEBISCITE DEADLOCK
Hopes for Tacna-Arica Agreement Follows Peace Talks by American Envoy

WASHINGTON, Oct. 22.—The serious deadlock in the Tacna-Arica plebiscite negotiations has engaged the attention of American Ambassador Collier at Santiago, Chile, and reports reaching Washington indicate a hope that his efforts will result in an agreement.

State Department officials decline to disclose any information, but authoritative advice from Chile telling of a conference between Mr. Collier and high Chilean officials about ten days ago give evidence of a new diplomatic effort to break the deadlock.

These advisers show that the Chilean government was much impressed by the firm manner in which Mr. Collier set forth the attitude of the United States.

In Latin-American circles here the dispatch of former President Alessandri to Arica, with the apparent intention of taking a liberal stand for an agreement is interpreted as a direct result of the maneuver of the American Ambassador.

It is assumed here that Mr. Collier naturally acted with the full knowledge and support of his government.

WREST KIANGSU FROM MANCHUS
Province Held by Wu Pei-Fu, Former Chihli Chief

PEKING, Oct. 22.—Generals of the Chihli forces which have wrested practically all of Kiangsu Province from the troops of Marshal Chang Tso-Lin, the Manchurian leader, claim that they captured 7000 of Chang's men near Nanking, where the Manchurian forces were crossing the Yangtze River.

Gen. Wu Pei-Fu, the former Chihli leader, on arriving at Hankow to assume the title of commander-in-chief of the Central Provinces, declared that fourteen of China's eighteen provinces are supporting the alliance between the Chihli and Kiangsu forces.

The alliance in opposition to Peking and Chang Tso-Lin at Mukden included all the provinces but Yunnan, Chihli and Manchuria, and that his allied armies would total 300,000 men.

Four divisions of Chang Tso-Lin's troops have led Mukden to reinforce Gen. Chang Tsung-Chang, Tapan of Shantung and a supporter of the Manchurian leader at Tsinan Fu, the capital of Shantung. Tsinan Fu is about 150 miles north of Hankow, reported captured by Chang's enemies.

RIFFS PROFESS IMPREGNABILITY
Abd-el-Krim Declares His Cause Invincible

SAYS FRANCO-SPANISH ACCORD DEFIES EXPLANATION

AVOIDS FRANCE WILL LOSE ALL NORTH AFRICA

BY VINCENT SHEKMAN

ALGER, Sept. 24, by Courier to Tanger, Oct. 22.—During the past few months, two peace efforts have been made, from the European side, with a view to ending hostilities in the Rif. Abd-el-Krim gave me the details of these two tentative approaches, and explained why they failed:

"The first was made by Senor Echegarria, the Spanish ship-builder and close personal friend of King Alfonso," he said. "Echegarria visited me four months ago. I discussed everything frankly with him, but since he had no official status whatsoever, I suppose that the Spanish government paid little or no attention to his recommendations."

"The second venture of peace came a little less than two months ago. The military commander of Alhucemas Island sent me a message, asking if I was ready to receive a party of Spanish and French peace commissioners. The question was phrased so vaguely and so insidiously as to be practically an insult. I replied that I would receive the Spanish and French commissioners whenever they came prepared to acknowledge my country's complete and unconditional freedom, and not until then."

"Other than these two incidents I have no knowledge of any attempt by either the French or Spanish to make peace."

WREST KIANGSU FROM MANCHUS
Province Held by Wu Pei-Fu, Former Chihli Chief

PEKING, Oct. 22.—Generals of the Chihli forces which have wrested practically all of Kiangsu Province from the troops of Marshal Chang Tso-Lin, the Manchurian leader, claim that they captured 7000 of Chang's men near Nanking, where the Manchurian forces were crossing the Yangtze River.

GO BACK TO THE COUNTRY!

Men of Proven Experience will show the way to Profit and Safety

Men who have proven their ability by the most successful agricultural cultivation are ready to guide you in the selection and maintenance of a suburban home, where an independent income may be enjoyed from avocados, oranges, lemons and winter vegetables.

The land has been proven—there is no guesswork. The service rendered after you buy is what counts. It means safety, profit and comfortable independence.

To really enjoy California, one must live in the country, on the rolling foothills overlooking fertile valleys and the sea. This is our message today. For the price of a house and lot in the better residential sections of Los Angeles, one may purchase four or five acres planted in avocados, oranges or lemons, located in the most beautiful district of Southern California and but forty minutes from Seventh and Broadway. A home that will mean independence.

Whittier Heights
Offers hundreds of beautiful homesites but 40 minutes from the center of Los Angeles—avocados, oranges and lemons—growing most successfully and profitably here. The view from any part of this property is wonderful—countryside runs directly to the ocean. There are many interesting camps and a lake of live oak—this is California at its best.

La Habra Heights
A most ideal spot for a suburban home—45 minutes from 7th and Broadway—located on the gently rolling hills between the thriving cities of Whittier and La Habra. Tremendous success has been enjoyed here by those growing Avocados, Oranges, Lemons and winter vegetables. There is a fine 18-hole golf course located in the very center of the property. A home here on 4 or 5 acres should give YOU financial independence in four years.

Vista
The Vista district, located on the Santa Anita Highway and the Santa Anita Railroad—100 miles north of Los Angeles—represents the last of the great open areas where all the great California staples in oranges, lemons, avocados, citrus and semi-tropical fruits grow in abundance and with remarkable results. Original prices prevail with attractive terms to the FIRST BUYERS.

DENIES BEING LOVE THIEF

Wilda Bennett, Actress, on Stand in Own Defense Against Suit of Racing Man's Wife

NEW YORK, Oct. 22.—A delicately poised figure, unburied under cross examination and deliberate in every gesture, Wilda Bennett took the witness stand in her own behalf at Lincoln today in the \$100,000 alimony suit brought by Mrs. Katherine Frey against her.

With categorical precision she denied him to leave his wife. Her eyes opened wide in indignation at the suggestion that she had seduced the racing man, who had been charged with having stolen. She had not even known he had a wife until she was told of it. She had not even known he had a wife until she was told of it.

Clenching her hands, Mrs. Frey averted her eyes from the calm figure in the witness chair as she made her declarations in musical tones. Mrs. Frey, who had spent the early part of the day on the witness stand, leaned anxiously forward straining to hear each word Miss Bennett was simple in all her answers, confining herself largely to "yes" and "no." She had not even known he had a wife until she was told of it.

"Did you ever stay at his house?" she asked. "No," she answered. "Did you ever stay at his house?" she asked. "No," she answered.

"Did you ever stay at his house?" she asked. "No," she answered. "Did you ever stay at his house?" she asked. "No," she answered.

RUM CHASER TAKES, THEN LOSES PRIZE

Coast Guard Bags Ship With Cargo of Scotch, But Got Her Too Far Out

SAN FRANCISCO, Oct. 22.—The motorship Quitchowan, believed to have been loaded to her scupper tops with what is now known as "real" Scotch, sailed right into San Francisco harbor today, turned around and sailed right out again, and all under escort of the Coast Guard.

Rum chaser No. 255, bobbing around in the roadstead off the Golden Gate, started the Quitchowan at dawn. She had been sought as a rum-runner. The little chaser took her in as a prize and put all of her crew under arrest. Once in port, the skipper of the Quitchowan asserted himself. He talked hard and fast. He said he had been taken outside the twelve-mile limit and proved it. There was nothing for the No. 255 to do but escort the Quitchowan back to sea again, which the little chaser did gallantly, to the accompaniment of a rollicking drinking chanty from the hurricane deck of the late prize.

PORTLAND UNIONS THREATEN BREAK IN SPIRIT OF PACT

General walkout threat was precipitated by a demand of stereotypers for higher wages, and endangers the Oregonian, Telegram, Journal and News. The publishers have been unable to procure a sufficient number of compositors, stereotypers, linotype operators and other mechanical department workmen in local fields to overcome the looming situation, and have sent out calls for help to other cities.

PORTLAND (Or.) Oct. 22.—Notwithstanding an agreement which representatives of the labor employed by Portland daily newspapers entered into just last year with local publishers for five years, the publishers again are facing a general strike situation. The general walkout threat was precipitated by a demand of stereotypers for higher wages, and endangers the Oregonian, Telegram, Journal and News. The publishers have been unable to procure a sufficient number of compositors, stereotypers, linotype operators and other mechanical department workmen in local fields to overcome the looming situation, and have sent out calls for help to other cities.

CREATING NEW STANDARDS

Surveys of the past year have shown that the one most asked for by prospective buyers was the Super-Heterodyne.

Surveys of the past year have shown that the one most asked for by prospective buyers was the Super-Heterodyne.

This demand will be increasingly evident during the present season because of advances and refinements such as are shown in the new Radiola 25, now ready here for demonstration.

FOILED "RIVER OF DEATH"

FIRST WOMAN PUT IN TRACY CITY JAIL

STOCKTON, Oct. 22.—Although erected in 1910, the Tracy City Jail was never occupied by a woman until Rose Gilbert of San Francisco was arrested following a quarrel with her companion, Robert Cheek, also of San Francisco. Cheek, who was also arrested, offered in court next day to pay Miss Gilbert's fine and obtain her release.

STOCKTON, Oct. 22.—Although erected in 1910, the Tracy City Jail was never occupied by a woman until Rose Gilbert of San Francisco was arrested following a quarrel with her companion, Robert Cheek, also of San Francisco. Cheek, who was also arrested, offered in court next day to pay Miss Gilbert's fine and obtain her release.

THIRD LIBEE FIANCÉ ON AMUNDSEN
SEATTLE, Oct. 22.—The third action against the alleged exploiters of the Amundsen expedition was today brought by the Seattle Commercial Union, which has secured the right to sue the expedition for the use of the name of the expedition in the sale of goods.

NECKLACE THEFT OF COUPLE
WAUKESHA, Wis., Oct. 22.—The State rested its case in the trial of the couple who were charged with the theft of a necklace from the home of a wealthy couple in Waukesha, Wis., last night.

Daily Style Hint For Well Dressed Los Angeles
LOS ANGELES, Oct. 22.—Come the days for the men of warm, rich colors, which every lady knows the preference in her own wardrobe. The new colors, including Bracken, sand and all the latest approved hues, are the big coat and suit color of the season.

STORIES OF SHIP
FIRE DISAGREERefugees' Recitals of Crew's
Behavior ConflictDrinking Denied by Some,
Others Confirm ItTestimony of Comanche
Incident Taken

(BY A. P. MONT WIRE)
NEW YORK, Oct. 22.—Conflicting stories were told by survivors of the burned Clyde liner Comanche at the hearing before the United States Steamboat Inspection Board in the customhouse today. The vessel was destroyed off the coast of Florida Saturday night, the 17th inst. Several passengers told of drinking by members of the crew. Others denied they had seen any drinking and insisted that the crew behaved in a most seamanlike manner.

John C. Moore of St. Petersburg, Fla., and Thomas F. Fanning of New York both told inspectors Harry Colgin and A. I. Chapman that the passengers saved the crew. Moore in his testimony asserted that he saw two negro members of the crew carrying flasks of whiskey and that most of the negroes were attempting not only to save themselves but also their bags. He said he saw three negroes pull two white men from a lifeboat.

PASSENGERS SAVE SELVES
William Mitchell of New York, although denying that he saw any drinking or abusive conduct among the crew, declared "the passengers saved themselves and the crew saved themselves."

James C. Wilkie of West New

VOLSTEAD TO TEACH DRY PUPILS

(BY A. P. MONT WIRE)

MINNEAPOLIS (Minn.) Oct. 22.—A school for dry agents at which former Congressman Volstead, father of the prohibition act, will be one of the instructors, was being formed by Gen. W. F. Rhinow, Northwest prohibition administrator today. Lectures by prohibition heads, including Volstead, Gen. Rhinow and others, then "quizzes" and talks on methods employed by agents in successful enforcement operations, are on the "curriculum."

Volstead is legal adviser to Gen. Rhinow.

Brighton, second steward of the ship, said he had one man in his department intoxicated, but denied there was excitement, drinking or any lack of seamanlike behavior on the part of the crew.

The hearing adjourned this afternoon after Charles Tobey, assistant general manager of the Clyde and Mallory lines, introduced the records of the licensed personnel of the ship and declared Capt. Curry of the Comanche was the strictest disciplinarian in the employ of the company.

SCENES DESCRIBED
Dramatic scenes aboard the steamship when the fire broke out in its hold were described by sixty-six members of the crew and of men of help, inveterate of the episode described by the returning crew members.

Women praying in the salon as they put on life belts, an orchestra of three musicians playing jazz to keep up morale, men passengers meddled with the officers' work, and playing cavaliers instead of men of help, inveterate of the episode described by the returning crew members.

Wilkie, second steward, said the fire was discovered amidship after a negro steward had noticed the boat deck was getting hot. A deck plank was ripped away, revealing that the fire already had made great headway. Members of the

crew immediately began fighting the flames with hose.

He said the captain gave orders to man the life boats within a few minutes after the fire was discovered. Wilkie emphatically denied that any women passengers had been pulled from life boats by negro members of the crew.

LIGHTS GO OUT
Regarding the incident of women praying in the salon while putting on their life belts, Wilkie said he gave orders to the orchestra to "play something jassy."

This seemed to help, he asserted, until the lights went out from a burned fuse and the musicians could no longer read their music. He denied that any order was given for passengers to go to the boat deck; instead of remaining on the main deck to board the life boats.

Wilkie followed the crew, "Wulie" said, "and, if I am not mistaken, they were led into this by some of the men passengers, who always try to run things when they ought to be minding their own business."

If they had given more time to being men of help instead of being cavaliers, it would have gone a longer way in doing something.

FIGHT LOOMS
ON CHARGES
BY MITCHELLQuestion of Consideration
by Trial Court Expected
to Precipitate Conflict

(REUTERS DESPATCH)

WASHINGTON, Oct. 22.—With the date for the court-martial of Col. William Mitchell set for a week from today, opinion is united here that the big fight of the trial will center over the legal question of whether the truth or falsity of the charges made against the War Department by the flying officer will be taken in consideration by the court.

As leader of the charges, Col. Mitchell is simply charged with a breach of military discipline and no attention is paid to the question of whether his charges of incompetency, made against both the War and Navy departments, are true or false.

In the opinion of the department of a separate air service, which was precipitated by Col. Mitchell in his statement at San Antonio, has no bearing on the points at issue in this trial. Their view is that Mitchell is guilty of conduct prejudicial to good discipline and is being tried for that and for that only.

Col. Mitchell is equally determined that the air controversy, especially his charges against the present army organization, must be fully discussed at the trial.

FIGHT ANNOUNCED TO
FREE MISS WHITNEY

(BY A. P. MONT WIRE)

NEW YORK, Oct. 22.—A nationwide campaign to win a pardon for Miss Charlotte Anita Whitney, civil and suffrage leader in California, convicted under that state's criminal syndicalism laws, was announced today by the American Civil Liberties Union. An appeal was sent to Gov. Richardson of California, declaring the refusal of the United States Supreme Court to take jurisdiction was a blow to free speech.

Miss Whitney was convicted by the California courts because of membership in the Communist labor party in 1918, since dissolved, the Union said.

MISSION WORK
BODIES MERGECongregationalist Societies
Form Two GroupsConsolidation Effected by
Committee ReportEfficiency and Economy
Prompt Action

(BY A. P. MONT WIRE)
WASHINGTON, Oct. 22.—Thirteen missionary societies were merged into two groups late today by a vote of the National Council of Congregational Churches after half a century of agitation on the proposal.

The consolidation, which was effected through adoption of a committee report, presenting two years of study, brought into two bodies, under the general heads of home and foreign missionary work, thirteen societies which have expended annually an aggregate of about \$5,000,000 and controlled properties and investments totaling \$50,000,000. The merger was made in the interest of efficiency and economy.

UNDER BOARD CONTROL
Home missionary societies in the group were placed under the control of the congregational home board, while all foreign missions were brought under the American board of commissioners for foreign missions.

The latter will assimilate three women's boards now working abroad. Consolidation of the three Congressional publications into a united publication known as the Congressionalist, also would be achieved.

PRESIDENT RE-ELECTED
Rev. William Horace Day of Bridgeport, Ct., was re-elected president of the American Missionary Association, which is holding its annual meeting here simultaneously with the annual convention of the Congregationalists.

Vice-presidents of the organization elected included Rev. Carl S. Patton, Los Angeles, and Frederick Lowery, Hawaii.

Passage of Land
Bill by Mexico
Believed Certain

(BY CABLE AND ASSOCIATED PRESS)

MEXICO CITY, Oct. 22.—Government leaders are confident that President Calles' bill making effective Article XXVII of the Federal constitution, the first reading of which was passed in the Senate last night, is certain of final passage before the present Congress adjourns in December.

The article in question deals with the rights of foreigners to own property in Mexico and if passed will particularly affect the holdings of oil companies here. Foreigners owning property within certain zones along the borders and coasts of the republic would be forced to sell them within three years after the law becomes effective unless they applied for Mexican citizenship in the meantime.

GERMANY PROTESTS
RUANDA CONDITIONS

(BY CABLE AND ASSOCIATED PRESS)

GENEVA, Oct. 22.—Germany has lodged with the League of Nations a protest against Belgium's asserted application to the former German colony of Ruanda, which was part of German East Africa, of administrative conditions which virtually make Ruanda a part of the Belgian Congo. Ruanda now is held under a mandate by Belgium. Belgium replied to this protest with a note denying the German charges.

TELLS FLAW
IN GERMANS
WAR POLICYAdmiral Declares Curbed
Submarine Activity Let
Americans Cross Sea

(BY CABLE AND ASSOCIATED PRESS)

MUNICH (Bavaria), Oct. 22.—American troops never would have reached Europe to participate in the World War if unrestricted submarine warfare had been started in time for Germany, in the opinion of Admiral Adolf von Trotha, former chief of the Admiralty.

Admiral von Trotha made this statement today while testifying in the slander suit brought by Paul Cosmann, editor of the South German Monthly Review, against the editor of the Munich Post, a Socialist paper. The Post (German) had published a "concocter of political poison" last April, when his paper contended that the German strategy at the front had been "stabbed in the back" by Socialist propaganda.

Admiral von Trotha testified that the real effect of the submarine received so many orders compelling them to make exceptions from the policy of ruthless destruction that the real effect of the submarine was that it could not be brought into play.

Submarine S-51
Gives Up Sixth
Body of Crew

(BY A. P. MONT WIRE)

NEW LONDON (Ct.), Oct. 22.—The sunken submarine S-51, wrecked off Block Island, a month ago by the steamer City of Rome, gave up another body today, the sixth recovered since the undersea boat went down.

Thirty-three officers and members of the crew were trapped when the submarine crashed into the bottom, sending the naval craft to the bottom. Three men rescued at the time of the accident.

The body recovered today had not been identified tonight. It was taken by the tugboat, the naval hospital at Newport, where it was said by hospital authorities that identification probably would be possible only by means of fingerprints.

The body was found by divers working preparatory to salvaging operations which will be started soon. They came upon the victim under the turn of the hull and it was believed he had been caught in the wreckage and carried down when the S-51 sank.

'Harlem Scotch'
Agents Trapped
in Chicago Hotel

(REUTERS DESPATCH)

CHICAGO, Oct. 22.—Two New York bootleggers who have been supplying guests of Chicago hotels with "Scotch whisky" made in Harlem and smuggled into Chicago on the Twentieth Century Limited, were caught in the baggage room of a hotel today by prohibition agents. An undercover man living at the hotel trapped them.

The arrest revealed the fact that E. C. Yellowley, the new prohibition chief, has planted men in widely known hotels.

The bootleggers were booked as Meyer Baileiger, Paul Leo Smudo, both of New York. They admitted that they had been "making" guests at the hotel regularly, and that the "Old Fart" whisky they sold at \$75 a case is manufactured in Harlem out of industrial alcohol, toilet water and other undrinkable components.

LOW-FLYING AVIATOR
FREED WITH WARNING

(REUTERS DESPATCH)

CHICAGO, Oct. 22.—Roy Ahern, young aviator, who flew repeatedly very low over Stagg Field Stadium during the Chicago Northwestern football game last Saturday, distributing circulars, pleaded his own case in Chicago today. It was the first trial of the kind in this city. Ahern was arrested on the charge of endangering the lives of 14,000 spectators. Judge McCarthy dismissed Ahern under condition that he warn all other aviators they must fly higher. The ordinance stipulates that aviators flying over the city must keep 3000 feet above the ground, and the dropping of advertising literature is prohibited.

NEW VALLEY HIGHWAY
WILL OPEN TOMORROW

(BY A. P. MONT WIRE)

SACRAMENTO, Oct. 22.—Traffic on the new concrete pavement between Turner's Station and Stanislaus River on the San Joaquin Valley trunk highway will be open to the public beginning Saturday, it was announced today by State Highway Engineer R. M. Morton.

This new section, which takes the place of the old county-built macadam road, is nearly twelve miles long and is twenty feet wide. The approximate cost of the improvement is estimated at \$278,000 and will be paid from the gasoline tax fund, Morton announced.

SHIP'S OFFICER JAILED
IN KILLING OF CAPTAIN

(BY CABLE AND ASSOCIATED PRESS)

SOUTHAMPTON (Eng.), Oct. 22.—The Canadian Pacific liner Melita, whose commander, Capt. A. H. Clews, was killed yesterday in a shooting affray, arrived today. Thomas Towers, first officer of the Melita, who is charged with the shooting, was landed and lodged in a police station. He will be arraigned tomorrow morning.

PACT APPROVAL
BY BERLIN SEENParliamentary Leaders Sure
of RatificationBaldwin Hails Creation of
Will for PeaceMussolini Paper Resents
Snub by Belgian

(BY CABLE AND ASSOCIATED PRESS)
BERLIN, Oct. 22.—The Parliamentary leaders tonight predicted a safe majority in the Reichstag for the Luther-Stresemann Ministry when the Rhine pact and arbitration treaties initiated at Locarno, come up for ratification.

A plenary session of the Cabinet, under the chairmanship of President von Hindenburg, today unanimously recorded its complete concurrence with the German delegates at the security conference and the Foreign Relations Committee of the Reichstag, which subsequently met, with Dr. Luther and Dr. Stresemann present, also indicated during the course of its deliberations that there will be no opposition from the middle parties and Socialists.

Dr. Stresemann's personal newspaper, Die Rundschau, asserts there is every indication that the great majority of German Nationalists will support the government when the peace treaties come up for ratification next month.

Dr. Stresemann today informed the Foreign Relations Committee that the western pact contained nothing but renunciation of all aggressive attacks.

The pact, therefore, did not interfere with the right of self-determination of peoples or with any kind of peaceful development.

BALDWIN HEATED

AT NEW WILL FOR PEACE

(BY CABLE AND ASSOCIATED PRESS)
COLCHESTER (Eng.), Oct. 22.—The miracle of Locarno is that a will of peace has been created in Europe for the first time since the World War, declared Premier Baldwin in a speech here today.

"We have therefore been able," he continued, "to build a solid foundation which will bear a superstructure erected upon it and if the promise of Locarno is fulfilled, as I have every hope it will be, the peace that we have built up in Western Europe will provide peace throughout the whole of Europe."

MUSSELI PAPER

RESENTS BELGIAN SNUB

(BY CABLE AND ASSOCIATED PRESS)
MILAN (Italy), Oct. 22.—The Popolo d'Italia, organ of Premier Mussolini, strongly resents the ignoring of the Italian Premier during his visit to Locarno by the Belgian Foreign Minister, Emile Vandervelde. The paper terms Mr. Vandervelde an "absolutely insignificant person" and says the Locarno episode will not be forgotten.

Far-North Tour
Said to be Plan
of Government

(BY A. P. MONT WIRE)

SEATTLE, Oct. 22.—Linking of Alaska's government railroad with steamers on the Yukon River to create a 1500-mile scenic land and water tour of the Far North is under consideration by government officials, Capt. E. E. Lancaster, Yukon River mariner since 1898, announced here today. Capt. Lancaster returned yesterday from Alaska.

An appropriation of \$500,000 to provide modern diesel-powered river steamers to run from Nanao on the coast to St. Michael and the coast is to be asked, the mariner said. From St. Michael other steamers would be provided to connect with Noma.

COMMANDER OF LEGION
TO VISIT LOS ANGELES

(REUTERS DESPATCH)

SAN FRANCISCO, Oct. 22.—John R. McQuigg of Ohio, new National Commander of the American Legion, is soon to visit California for a week's stay. State Commander Allen McQuigg, brother of the local headquarters of the Legion has received the above word from Commander McQuigg. The exact date of the visit is to be announced later. He will visit posts in San Francisco, Los Angeles, Oakland, Sacramento and as many other units of the California department as possible while he is in this State.

FEDERAL EXPENSES
HEAVY IN ARIZONA

(REUTERS DESPATCH)

PHOENIX, Oct. 22.—Though Arizona is a State with one of the smallest of populations, it ranks fifth in point of cash disbursements of district United States Marshals. The Arizona officer, George A. Mack, last year spent \$110,000 in government funds. Estimate is made that Federal expenditures in Arizona approximately \$10,000,000 a year, with inclusion of road construction costs.

EDISON COMPANY GETS
PERMIT TO SELL STOCK

(BY A. P. MONT WIRE)

SAN FRANCISCO, Oct. 22.—The Southern California Edison Company today was granted permission by the State Railroad Commission to issue and sell \$10,000,000 in 6 per cent preferred stock to finance in part uncapitalized expenditures. Estimated expenditures by the company for 1936 are given as \$12,558,000.

ESTHONIA ASKS TRADE

Inquiry Fails to
Sustain Charges
by Local Men

(REUTERS DESPATCH)

STOCKTON, Oct. 22.—City Manager Charles E. Ashburner, after investigating charges made by Sam Gilbert and Henry Sherman, two Los Angeles jewelry salesmen, does not sustain them in their allegations of having been abused. Neither does he find that police officers retained \$70 in cash and several watches asserted by the salesmen to have been deposited at police headquarters on their arrest.

A charge against Gilbert for carrying concealed weapons is still pending and will be pressed by the City Attorney.

In his findings, the City Manager criticizes the police department for placing the men in jail.

Which is Brass Pipe?

THE FULL FLOW, OF COURSE!
BRASS costs you little more than the best ordinary pipe but it never rusts.
It is desirable to use only solid BRASS fittings — not iron fittings — with BRASS pipe, otherwise electro-chemical action will cause corrosion of the iron.

Put in BRASS, the pipe that always delivers a full, clean flow of water.

COPPER & BRASS RESEARCH ASSOCIATION
22 Broadway - New York

Let us send you an interesting book about Brass pipe. No charge.

Facts about World Cruises
A Frank Statement to the Traveling Public

Largest and Finest among the six ships scheduled for world cruises is the S. S. Belgenland.

The Belgenland is 2,200 tons larger than her nearest competitor—6,200 tons larger than the average among her five competitors.

Limited to 475—In spite of this great advantage in size, the Belgenland cruise is strictly limited to 475 passengers.

Plenty of Room—These facts can have but one meaning, that you will find a commodious atmosphere aboard the Belgenland. Plenty of room to move about in. Freedom from too close and compulsory contact with fellow passengers which is the result of an overcrowded ship.

Food and Service of the highest transatlantic standard, in keeping with the Red Star Line's 54 years' experience.

Smoothest Management of all shore trip details made possible by the Belgenland's having covered the same itinerary last year.

Sailing Westward with the sun, reaching each country at a most delightful season.

Last Year's Cruise Proves by its success, that the right number of days are allotted to each country for covering the points of interest comfortably.

"Visitors of Note." As such the passengers of this outstanding world cruiser are received wherever they go.

TO VISIT HERE

(SANTA BARBARA, Oct. 22.—Bobby Jones, Sasby Atlanta amateur, has made hotel reservations here for the latter part of December and will undoubtedly play in the feature \$10,000 Los Angeles tourney, to be played over the north course of the Los Angeles club, January 6 to 9.

BAY CITY
STAR OUT
OF EVENT

Mrs. Brent Potter Defeats Mrs. Frank Sheedy, 1 Up, in Northern Classic

(SANTA BARBARA, Oct. 22.—On the eighteenth green, steady little Mrs. Brent Potter defeated Mrs. Frank Sheedy today in a semifinal of the Northern California golf championship. Mrs. Potter and Mrs. W. C. Van Antwerp, who won from Mrs. Milton Bernard, 3 and 1, play the final at the San Francisco Golf Club tomorrow, beginning at 10 o'clock.

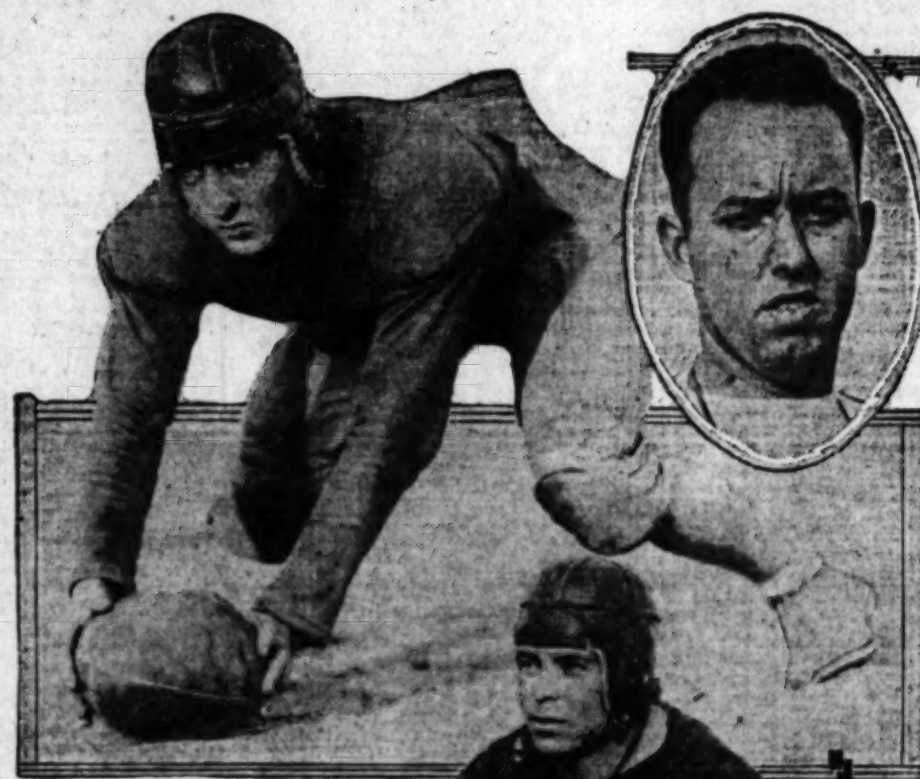

Mrs. Potter deserves credit for upstaging whatever advance opinion was offered on the outcome and of halting temporarily a star, who has been a candidate for the invincible class for months.

Mrs. Milton Bernard gave Mrs. W. C. Van Antwerp a merry battle for nine holes. Then the medalist stepped out to win the tenth, eleventh and twelfth, and two holes later was 4 up. She coasted in, while Mrs. Bernard courageously fought back.

(Continued on Page 2, Column 5)

SOME JEFFERSON HOPES

Although a majority of prep grid fans are predicting that Lincoln will trim the Democrat eleven when the two squads tangle today at Franklin High in a City League struggle, here are a quartet that are out to make the dopest look foolish. On the top is Bill Jenkins, Jefferson captain and center, while the inset is Coach Dave Fryer. The other two are Harry Edelson, Democrat quarterback, and Harry Diddion, Jackie, and one of the mainstays of the Jefferson forward wall.

PALO ALTO

Oregon Aggies Hopeful of Scoring Win Over Cardinal Eleven

(CORVALLIS, Ore., Oct. 22.—Not predicting victory but in high spirits and feeling that they have a good chance against the Cardinals, the Oregon Aggies left here for their football game at Palo Alto Saturday. Coach Schuler took thirty men and expects to give them a chance for a workout in San Francisco tomorrow.

Three thousand students escorted the Aggies to their train. The campus followers believe that the Aggies have the best team they have sent out in years. It is unscathed on so far.

Before departure Schuler announced that the line-up against Stanford will be the same, with one exception, as that against Whitman last Saturday. The exception is big Jim Dixon, who has recovered from injuries and will go back at left tackle, replacing Harold Liebo. Liebo, however, was the outstanding star of the Whitman game and will doubtless get into the contest although the Aggies are strong in both their regular tackles, Dixon and Dickerson. The Aggies' initial line-up will be: Ward, I. E.; Dixon, I. E.; Richard, I. E.; Dickerson, R. E.; Logan, R. E.; Edwards, G. E.; Schuler, I. E.; Dickerson, R. E.; Schuler, I. E.; Dickerson, R. E.

SANTA MONICA BABES
TIE WITH VENETIANS

Lightweight teams from the Venice and Santa Monica high schools battled to a 6-6 tie yesterday afternoon. Both teams played straight football until the fourth quarter, when a passing attack was tried. The Venetian Babes pushed the ball to the Santa Monica 30-yard line, but were unable to get nearer.

Briggs and Steward were the outstanding line plungers for Venice, while Spears found the Venice backs to throw them for Jones. Frank Spears was brought back into the backfield and carried the ball for many yards. The line-up:

| | |
|----------------|------------------|
| St. Monica | Venice |
| Ward, I. E. | Richard, I. E. |
| Dixon, I. E. | Dickerson, R. E. |
| Logan, R. E. | Edwards, G. E. |
| Schuler, I. E. | Dickerson, R. E. |
| Schuler, I. E. | Dickerson, R. E. |

Squads in Fine Fettle for Big Game

Babes Clash in First Tilt of Conference

Those who have never actually witnessed a tooth-and-nail combat between a Tiger and a Grizzly Bear can step out to Patterson Field, Occidental College, tomorrow afternoon and witness the annual football game between the Tigers of Occidental and the Grizzlies of U. C. at L. A. which promises at least as many blood-curdling features. Twenty thousand spectators are expected to witness the afternoon tilt, which commences at 12:30 with the game between the freshman teams of the two schools.

At the moment of going to press the Occidental eleven seems to be regarded as a slight favorite largely because the Tigers have an unblemished record in the conference race. The Grizzlies two weeks ago leaped into favoritism through their 24-0 defeat of Pomona, last year's champions, but fell on their perch when the pesky Poets of Whittier snatched up on them and beat them, 7 to 0, last Saturday.

NO INJURIES
Contrary to the time-honored custom, there are few if any walls being emitted about the hospital lists in both camps. Coaches Ed Nichols of Oxy and Bill Spaulding of the Grizzlies announce that their respective eleven will be on the mark ready to go tomorrow at practically full strength. The injured members of both teams apparently are about a standstill.

Occidental seems to have the better record, having beaten La Verne, 28 to 0, Fresno State College, 25 to 10, lost to Stanford, 21 to 0, and having beaten Redlands, 14 to 6. The Grizzlies beat San Diego State, 7 to 0. La Verne 15 to 6, Pomona, 28 to 0, and lost to Whittier, 7 to 0. The only game which tends to give a real line between the teams is the La Verne fracas, which would mark Occidental as the stronger.

The Grizzly eleven has shown terrific fighting spirit, a good foundation of straight football and rather exceptional work by three outstanding stars, Loren Peake at fullback as a line plunger and defensive star, Cy Walton, a demon operator running halfback, and Jack Frost, a very exceptional young man at booting over field goals with his highly educated toe.

The Tigers have had no outstanding stars so far, except their sensational pair of ends, Mike Godet and Bud Schout, who are regarded as the best pair of ends in the State. A collection of speed-burning halfbacks has piled up most of the Tiger points, while the kicking of Wheeler and the defensive work of Capt. Rensius at center have been bright spots.

BACKFIELD LIGHT
Weight advantage seems to be on the side of the Tigers, not because they're so very big but largely because the Grizzlies are said to be rather small. The Tigers, with the exception of Conde, a 185-pound giant at right tackle, all run about 175 or 178 pounds in the line, with Godet a bit under that, at about 165. Against this average of close to 175 pounds, the Branch line is said to be outweighed about ten pounds to the man.

Both backfields are rather light and run to speed. The Grizzlies have no very heavy men, but have a large assortment, with Peake, Walton, Jessup, Frost, Eberbaugh, Ray and several others of considerable ability and fame. Oxy has a similar assortment, with Wheeler at 175 pounds, the "giant," and including Miahnik, Turley, Gregory, Buxton, Smith, Fusco, Purser, Brobst, Buckman and several others.

The freshman game, which is the first conference clash for both teams, promises to be unusually exciting and well-played. The Grizzlies have trimmed the Tiger yearlings three years running, and the teams are rated about equal on advance dope.

SEATS ON SALE
FOR BEAR TILT

Tickets for the Pomona-California game a week from tomorrow go on sale today at the B. H. Dyas office.

This will be the only appearance of the Bears in Southern California for two years. The game is to be played at the Coliseum. California arrives a week from today and will stop at the Ambassador Hotel.

MITCHELL HURT;
OUT OF CLASH

(STANFORD UNIVERSITY, Cal.) Oct. 22.—"Mugs" Mitchell, heady little quarter who was outstanding in Stanford's defeat of U.S.C. Saturday, may be unable to play this week against the Oregon Aggies. An examination today showed that a leg injury has developed water on the knee.

Fred Solomon will replace Mitchell if he is unable to play.

Ward Paulson, tackle, was not in a uniform today, but he is expected to round into shape by Saturday.

COLIMA NOT
READY FOR
LOMSKI GO

Bad Hand Received in Gans Bout is Cause of Postponement

The long-anticipated bout between Bert Colima and Leo Lomski, the tough young man from the Northwest, who knocked him out in Seattle, has been postponed for a second time on account of the bad hand Colima received in his fight with Dago Joe Gans at Ascut.

"Doc" Spencer, the home specialist, declares Colima's paw will not be in shape for him to box until the first week in November. With the date of the scrap set for November 3, that leaves Colima no time in which to work with sparring partners, and "Wad" Wadhams, Vernon matchmaker, said yesterday he would tentatively move the engagement one week ahead.

The new date conflicts with the one held open for the Callahan-Pal Moran fight, but this may be smoothed over if the boxing commission lifts the suspension of Callahan in time for Munshy to fight November 3. Eddie Kitcher, manager of Lomski, is naturally quite perturbed over the turn affairs have taken. He came here with Lomski three weeks before the first date named for the fight—September 27—in

Coast Leaguers Held to Six Hits by Star Hurler

Colonels Drive McWeeny to Showers in Seventh

Tyson is Batting, Fielding Star of Series Tills

(SAN FRANCISCO, Oct. 22.—The Louisville Colonels, champions of the American Association, walked away with all the honors in the first of a nine-game series with the San Francisco Seals, here today, by shutting out the champions of the Pacific Coast League, 7 to 0.

The Louisville club started from the first inning like champions and played the role throughout. Big Chief Ben Tincup sounded the battle cry of Kentucky, gathered his tribe of hitting warriors before him, rolled into action the "bertha" of the Colonels, a batter by the name of Ty Tyson, and when the smoke cleared away the easterners trotted to the showers with a shutout victory over the Pacific Coast baseball champions to their credit.

Centerfielder Tyson, who has been sold to the New York Giants, was the one big feature of the game. His spectacular fielding in the outfield met great approval with the several thousand fans and was given a big hand at every opportunity. Out of four times to bat he connected for a home run, a two-bagger and a single. He also made nine put-outs. Chief Tincup pitched stellar ball and held the Coast men down to six hits.

The Coast champions couldn't seem to find their stride, although they touched Tincup often, little popups being the one big feature of the game. Oregon Has No Hopes of Defeating California in Conference Clash Tomorrow

HUDDLE SYSTEM WILL BE USED

Northwest Gridders Employ
Frank Style of Play

Schlesler Works to Speed Up
for Bear Contest

Lemon-Yellows Performing
in Usual Fashion

(EXCLUSIVE DISPATCH)

PORTLAND, Oct. 22.—The huddle system of calling signals has gained another convert in the Pacific Northwest. The University of Oregon, which will use it next Saturday against the California Bears, the Oregon Aggies, adopted the huddle system last year and have persevered with it in spite of criticism that it slowed up the game. Coach Smith believes in its advantages and is trying it out at Eugene.

The Aggies have greatly speeded up their huddle this year, as they demonstrated here last Saturday in their game against Whitman. Last year their signal calling was painfully slow, or at least it seemed so from the grand stand. This year they have adopted a modified system. The linemen stand by their positions and only partially turn toward the main group that is formed by the backs. Then, when the signal has been given, they snap back into position and the scrimmage is on.

Coach Schlesler contends this is faster than the old-style play. It does not seem so to the spectators, but perhaps actual timing would show it to be. But the O. A. C. huddle this year is much faster than last and the Aggies will use it against Stanford at Palo Alto next Saturday.

FANS BOO IDEA
Oregon, on the other hand, has not got its huddle down to a quick-working basis yet. At least it did not have in the Idaho game. That contest dragged when Oregon had the ball for no other reason than the time delay in the signals being called. Coach Smith has been trying to speed it up and believes that Oregon will snap into its faster huddle this Saturday.

If not they will surely be harassed by the Portland crowds, who do not like the huddle system. When the Oregon Aggies faced the Southern California here the stands, which were naturally strong for the Oregonians to win, began leaving because of the delayed play.

Huddling is not any more popular in the Middle West, either. According to Earl Spelman, ex-Oregon line coach, now chief scout for Washington, Spelman watched the Nebraska-Illinois game last Saturday for Washington and he panned Red Grange's outfit for making the game drag.

"Delays between Illinois plays seemed interminable," reported Spelman. "The huddle system may be all that its proponents claim for it, but I fail to see its advantages—not as Illinois ran her plays, anyway."

NOT STARTED
Oregon has no real hope for her game with California Saturday, except to hold down the score. At the beginning of the season the Webfooters expected to do great things. The old team was back and its weaknesses were remedied. But good as the team appeared on paper, it has not got started and the Eugene students are beginning to feel discouraged.

There is, however, a possibility that Oregon may do better than expected. Last year she tied with Williams and lost to Idaho and Stanford before coming through with flying colors in defeating Washington and the Oregon Aggies. She has started with similar results this year, all right, but it is a question whether she can pull up for a rally. That will be seen next Saturday for all thought and attention at Eugene have been given to making a real showing against the Bears.

The Oregon Aggies, in contrast, are riding high in advance of a Stanford victory, but they certainly have hope. They may not stand up against Nevada and Idaho, but they know to be mighty formidable, but they have the men and the spirit to make a stronger battle than any O. A. team has for several years. Even if defeated, they ought to make a real showing against the Cardinal.

'Doc' Snell and Bud Taylor in Training Grind

Doc Snell of Peshastin, Wash., and Bud Taylor of Terre Haute, Ind., are seeking sparring partners right and left with rights and lefts for their appointment at Vernon next Tuesday night.

Snell is giving one of the best exhibitions with his gloves in the gymnasium that has been seen in a long time. The blond drugist is working with Bud Riley. Their workout means victory.

Taylor is boxing with a chap named Finley — a Chicago boy whom Eddie Long brought out on this trip.

Matchmaker Wadhams announced his complete card for Tuesday's event yesterday.

Frankie Darren meets Sammy Hawkins in the semi-final. Tom Freeman is paired with Pat Freeman in the other six. The two four-round bouts bring together Bernard Wolfe vs. Frankie Turner and Jack Garcia vs. Sailor Garter.

AUSTRALIAN CYCLIST SETS 100-MILE MARK

(BY CABLE AND ASSOCIATED PRESS)

MELBOURNE, Oct. 22.—Allen Quilton, an Australian amateur cyclist, today set what is claimed as a new world's record for 100 miles unassisted by a motorcycle, covering the distance in 48.37 m. He rode on a motor-driven track.

OBSERVATIONS

BY THE
UNOCCUPANT
STANDARDS.
BILL HENRY

THE unsavory spectacle of college football teams playing each other without an advance chorus of yelps regarding injuries is coming into style. We have in coaches Jones of U.S.C., Nichols of Occidental and Bill Spaulding of U.C.L.A., three rather recent arrivals, all of whom insist that their team will be "rarin' to go" for every game. All the sob stuff which used to leave the sport writers weak and exhausted from weeping for a week before all the big games seems to have passed completely out of style.

The coaches seem to be getting next to the fact that a good coach is supposed to be prepared for such things as illness and injuries, and if his team is completely wrecked by the absence of a couple of stars, it is not only hard luck for him but pretty nearly indicates that he's a pretty poor coach if he hasn't accepted substitutes. The small college coaches, with their scarcity of material, have some reason to wail a little, but the big coaches haven't any.

Nowadays the coaches take injuries as the force of war and do their best to have good substitutes for every position. If they fail to do so they certainly aren't good coaches. It is perfectly true that Coach Jones, for instance, would miss such men as Morley Drury or Eric Taylor, but it certainly shouldn't completely wreck the eleven. Hence it is with a great deal of relief that we hail the dawn of the day when we can face Saturday's football game without wading around in a pool of tears shed by a coach.

Stanford and California are both running up against some pretty tough opposition tomorrow with the two Oregon eleven. The Oregon University team which plays California at Portland, Wash., and last year, but hasn't quite lived up to expectations so far this season while the Aggies, who are playing the Cardinal at Palo Alto, are regarded as one of the strongest aggregations that ever rolled off the farm.

Dartmouth University alumni, who are among the strongest in the south, are having a powwow at the University Club tomorrow noon at one end of a telegraph wire, the other end of which will be sending, play by play, the Harvard-Dartmouth game. Dartmouth hopes to make it three in a row over the Crimson, and next year will also play Yale. The Green eleven is one of the few remaining undefeated teams.

Noted Tennis Stars Arrive for Net Play

(EXCLUSIVE DISPATCH)
MEXICO CITY, Oct. 22.—California's contingent of tennis stars arrived in Mexico City yesterday aboard their private car, for the third annual Mexican national tennis tournament championship which begins tomorrow and continues for eight days. Forty international players have already gathered at the capital, including Central American, Cuban and Spanish stars.

It is generally conceded that the final battles for the singles tournament will be staged between Alonso, Spanish champion, Howard Kinsey or Johnston, with Johnston favored because of his great past record. Vincent Richards, who holds the doubles championship, with Casey was unable to attend, the tournament at the last minute, on the battle will probably be between the Kinsey brothers, Johnston and Griffin or Budgras and Westbrook.

The outstanding men stars who are attending the meet are William Johnston, Kinsey Norton, Harvey Budgras, Brian Norton, Clarence Griffin, Mong, whom they know to be mighty formidable, but they have the men and the spirit to make a stronger battle than any O. A. team has for several years. Even if defeated, they ought to make a real showing against the Cardinal.

NEW BISHOP TO LIVE IN PHOENIX

Residence There Provided for Diocese Head

Elevation of Dr. H. B. Moore Surprises Arizonans

Rev. William Scarlett Had Been Given Support

PHOENIX, Oct. 22.—The elevation of Rev. Henry B. Moore to be bishop of the Protestant Episcopal missionary diocese of Arizona by vote of the Episcopal Church general convention at New Orleans, was a surprise in Phoenix, where the name of Rev. William Scarlett, former dean of Trinity Cathedral in this city and now dean of Christ Church Cathedral in St. Louis, had been supported. An El Paso clergyman also was understood to have been under consideration.

Bishop Moore is to be consecrated soon in New York, according to reports received, and soon thereafter is to make his residence in Phoenix, where an episcopal residence has been provided. His latest service was as secretary of the field department of the diocese of New Jersey, an office in which he has had experience considered of large value in the position he is to assume.

JURISDICTION CREATING As early as 1888 Arizona, coupled with Nevada, had a missionary bishop, O. W. Whitney, who made his first visit here in 1894. In which year, at his suggestion, the missionary jurisdiction of Arizona and New Mexico was created.

William F. Adams of Louisiana was named to the new bishopric, but never came West. Neither did D. B. Knickerbocker of Minneapolis, later named. Establishment of the church in Arizona possibly was due to the influence of Jesse Benton Fremont, wife of Gov. John C. Fremont, who Bishop Spaulding of Colorado in 1879 suggesting Prescott, then the capital, as the site of the first church organization.

The first active head of the denomination in Arizona and New Mexico was Bishop George E. Dunlop, from Kirkwood, Mo., who found in Arizona in 1880, "not a church building, not a piece of property, not a congregation, not a clergyman and only forty communicants who had reported." Bishop Dunlop died in March 12, 1889, leaving church

BEWARE THE COUGH OR COLD THAT HANGS ON

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. Creomulsion Company, Atlanta, Ga.—(Advertisement)

DYNAMITE USED FOR REVENGE

Ejected Tenant in Paris Takes Action Against Landlord

(BY CABLE-REUTERS DISPATCH) PARIS, Oct. 22.—One way to get even with your landlord when he puts you out in the street is to dynamite the house. Pierre Bourdon thought so when he placed a couple of sticks under the walls of the home of M. Robin, near St. Brieux, where he was a lodger.

The explosion crumpled part of the house. No one, however, was injured. Bourdon was arrested after a chase and revealed that on being told to leave he decided to wreck the home in revenge.

***** buildings at Tombstone and Phoenix and a congregation in Tucson.

TEXAS AREA INCLUDED

Then, dating from January 18, 1889, came Bishop John Miles Kendrick, still held in affectionate remembrance. His diocese included not only the two territories but Texas west of the Pecos River. In 1891, when the diocese was divided, he was assigned to New Mexico, but in that year he died in Pasadena, though burial was in Phoenix. Here he was succeeded by Bishop Julius W. Atwood, formerly of Columbus, O., who has been the head of the diocese and rector of the local congregation.

Bishop Atwood last spring indicated his desire toward retirement and presented his resignation for consideration by the House of Bishops at New Orleans. He has been very active in his work, has established a number of churches and has founded three suburban sanatoriums, while he has paid attention also to the needs of the Navajo Indians, in the maintenance of a hospital at Fort Defiance.

Printers Go to School as Part of Convention

(BY A. P. MURPHY WIRE)

CHICAGO, Oct. 22.—Two thousand master printers attending the thirty-ninth annual convention of the United Typothetae of America went to school today.

Entrance to the room in which classes were held was a reproduction of the little red schoolhouse in which many of the printers learned their three Rs. The teachers were experts in marketing and included such experts as Marquis Ragan, New York; John Cameron, Chicago; Thomas H. Beck, New York, president of Collier's Magazine, and Al Lewis of Toronto. "It takes men with ideas to sell printing," said Mr. Lewis, chairman of the marketing committee of the printers. "The successful printing salesman must be able to contribute constructive ideas showing the customer how printing will make money for him. He must know not only his customer's market but his own as well—a condition that exists in few other industries."

Agents Tell of Los Gatos Bank Mail-Box Theft

(BY A. P. MURPHY WIRE)

SAN JOSE, Oct. 22.—The United States postal inspectors' office here announced today that the letter box of the Bank of Los Gatos in the postoffice of that town was rifled on the 11th inst., and \$11,000 in currency and checks were stolen. The matter was kept a secret until today so that the postal authorities would not be embarrassed by publicity in their investigations, the inspectors announced. No arrests have been made.

Coal Robbers Overload Boat and Abandon It

(BY A. P. MURPHY WIRE)

NEW YORK, Oct. 22.—Coal robbers made their appearance in New York today soon after the shortage began to worry officials. Five tons were taken from a barge tied up in Staten Island and loaded into a battered lifeboat. After towing it a short distance the thieves apparently found their boat unable to pull the load and tied it to an abandoned barge. In the meantime the theft had been reported to the marine police, who found the stolen coal. They believed the thieves had intended to return with a stronger power boat.

Two Men Die as Rock Slab Falls in Copper Mine

(REUTERS DISPATCH)

STOCKTON, Oct. 22.—The fall of a slab of rock in the Calaveras Copper Company mine at Copperopolis about midnight last night, crushed out the lives of two miners, John Infante, 39 years of age, and Ernest Hohstadt, 24. The accident occurred on the 1800-foot level. The slab of rock measured about eight by twelve feet and dropped from directly above the men. Neither man has relatives.

MUSSOLINI ON TOUR OF NORTHERN ITALY

(BY CABLE AND ASSOCIATED PRESS)

ROME, Oct. 22.—Premier Mussolini, accompanied by his personal staff, today left for a brief tour of Northern Italy, during which he will participate in the celebration of the third anniversary of the Fascist march to Rome. He will return to the capital the 31st inst.

UTILITIES OF TEXAS TOWN UP FOR SALE

Municipal Ownership Dream Fades When Plants Fail to Pay

(REUTERS DISPATCH)

HARLINGEN (Tex.), Oct. 22.—Another dream of a municipality which might own and operate all of its public utilities faded here today when the City Council adopted a resolution authorizing negotiations for the sale of both the city water and light plants to the Valley Electric and Ice Company.

Charging that the operation of the municipal plants so far has been a failure both from the viewpoints of financial success and service to the public, the Harlingen Chamber of Commerce recently petitioned the Council to either improve the plants or sell them.

It was pointed out in the petition that the demands of a growing town can be met far better from the resources of a private corporation than from the municipality itself, and improvement of service is greatly desired by the citizens. Lloyd Thompson was recently appointed chairman of the committee to arrange the sale of the properties.

MONOLITH

PLASTIC WATERPROOF PORTLAND CEMENT

A Safe Cement to Use in Damp or Rainy Weather

Monolith requires no special precautions in transporting in wet weather and it can be stored almost indefinitely without deterioration. This cement is waterproof in the sack—as well as in the finished job—because the ingredients that make it waterproof and plastic are ground into it during the process of manufacture.

For dry walls, beautiful walls, and walls of enduring strength—insist upon the use of Monolith Plastic Waterproof Portland Cement.

For Sale by All Building Material Dealers

It's manufacture two cements—one is Monolith Portland Cement, a high grade uniform Portland. The other is Monolith Plastic Waterproof Portland Cement. Both are guaranteed to pass specifications. In ordering from your dealer be sure to specify which cement you desire.

MONOLITH PORTLAND CEMENT CO.

BARKER BROS. COMPLETE FURNISHERS OF SUCCESSFUL HOMES BROADWAY BETWEEN SEVENTH AND EIGHTH

By JAMES C. FERNALD, L.H.D.

A remarkable work, clear, concise, and brimful of interesting facts and illustrations showing exactly how to use the various elements of composition, the sentence, the paragraph, the simile, the metaphor, the adverb, and introductory particles. These are clearly defined and illustrations of actual use are given from the works of such authors, such as Shakespeare, Byron, Scott, Macaulay, Irving, Mark Twain, Cooper, Cooper, Bayly, Emerson, Longfellow, Burns, Beecher, Greeley, etc.

If you would develop a smooth and convincing style of speech and writing, read this book. It is a practical, a practical value and, in addition, the authority in the field.

12mo. Cloth. 324 pages. \$1.50, net.

NOTICIAS MUNDIALES DE ULTIMA HORA

Atendiendo a la importancia que tiene el estudio del español en los Estados Unidos, particularmente en esta gran metrópoli tan inmediata a territorio hispanoamericano, diariamente aparece en "The Times" esta sección española con algunas interesantes noticias de última hora. Tres veces por semana se insertará una lección práctica elemental de castellano, y los lunes encontrará el lector dos lecciones para estudiantes adelantados.

A quienes deseen aumentar sus conocimientos de español les conviene leer esta columna todos los días.

NOTAS TELEGRAFICAS

Noticias de Washington
WASHINGTON, Octubre 22.—El ministro Mellon ha presentado una nueva lista de cuotas de impuestos.

Se le ha negado la entrada en los Estados Unidos a la condesa Karolyi, de Hungría.

El gobierno ha convenido ante la suprema corte en haber practicado ilegalmente una incautación de licor.

Sofia Combará al Ateneo Sigue Aranzando

VIENA, Octubre 22.—Las tropas griegas cruzaron hoy la frontera búlgara, en crecido número, y ocuparon tres posiciones fronterizas búlgaras. Las de Bulgaria opusieron poca resistencia, retirándose luego que la artillería ligera griega les había matado cinco soldados y herido a otros varios. Después comenzaron los cañones griegos a bombardear Petritz. Tal es la substancia de la noticia oficial dada en Sofia por el gobierno búlgaro. Hacesse también presente que el gobierno de Atenas no ha contestado todavía a la petición de Bulgaria, de que se haga una investigación de los desórdenes de la frontera, y se rinda un informe sobre ellos.

Si bien se dice en Sofia que hay grandes esperanzas de un arreglo pacífico, se añade que Bulgaria resistirá energicamente a cualesquiera negociaciones. Este último país está dispuesto a someter la situación a un tribunal mixto.

Los Rusos le Ofrecen Toda su Ayuda a Turquía

LONDRES, Octubre 22.—El gobierno británico ha obtenido pruebas fehacientes de que los turcos han recibido de los soviets ofertas de ayuda militar en caso de que estalle la guerra con Inglaterra, por la cuestión de Mosul.

Los soviets ofrecen proporcionar a minar los estrechos, y prometen garantizar la frontera del Cáucaso, en lo que se refiere a la Rusia, en aptitud de retirar de allí todas las tropas posibles y lanzarlas contra los ingleses en Irak y contra los franceses y sirios en la Siria, caso. Le permitirán asimismo que forme cuerpos de voluntarios entre las tribus caucásicas, con oficiales turcos, y le devolverán el material de guerra turco que capturó Rusia durante la guerra mundial, y que desde entonces se halla almacenado en Tiflis.

Comienza el Invierno en Serio en el Oeste Central

CHICAGO, Octubre 22.—La tormenta de nieve que impresionó tanto a los madrugadores esta mañana temprana, puede que se repita esta noche, a despecho del sol, que estuvo brillando y calentando hoy a Chicago. El A. Donnell, dijo que se esperaba lluvia o nieve para esa de la media noche, o antes.

Anoche hubo nevadas, aguas nuevas y aguaceros por todo el oeste central, según noticias recibidas en la estación meteorológica de aquí y La temperatura subió apenas del cero centígrado. La tormenta de esta noche va a ser semejante, sólo que es más probable la lluvia que las nevadas.

COUNTY HAS RECORD FOR RETRIEVALS

Los Angeles Returns Most Prisoners by Extradition; State Gives Out Figures

(BY A. P. MONT WIRE)

SACRAMENTO, Oct. 22.—During the year ending today 146 petitions for extradition of prisoners from other States to California were issued, as compared to 182 petitions issued for extraditions from California.

The figures were given out from the Governor's office in announcing that a system of uniform blanks for use of district attorneys in submitting requests for extradition is being arranged.

Los Angeles county led all other counties in the State in the number of extraditions granted for return of prisoners to face charges in California. Sixty-eight petitions originating in that county were granted during the year.

San Francisco county was next with twenty-three, then San Diego and Kern counties with five each and Sacramento and Alameda counties with four each.

ASK REHEARING ON RADIO RATE RULING

(EXCLUSIVE DISPATCH)

SAN FRANCISCO, Oct. 22.—The California State Railroad Commission will hear oral arguments on Tuesday on the petition of the railroads asking for a rehearing, following the recent decision of the commission denying an increase of 50 per cent in freight rates on less than carload shipments of radio receiving sets and combined radio sets and talking machines. Seth Mann, attorney and manager of the traffic bureau of the San Francisco Chamber of Commerce, will represent the local chamber and the Pacific Radio Trades Association in the matter.

NOTAS LOCALES

El Martes Serán Sentenciados los Ex-Concejales

"Culpables de concusión": tal fue el veredicto pronunciado ayer por el jurado popular, en la sala del juez superior Hahn, contra Charles E. Downs y Joseph Fitzpatrick, municipales suspendidos. Salto en libertad Jack Murphy, joven amigo de Downs, y que, según la acusación, actuó de intermediario en el enjuague de los \$1000 pagados por la franquicia.

Anunció el juez Hahn que pronunciará sentencia la mañana del próximo martes, y que ella será de uno a cuatro años de cárcel.

BARKER BROS.

COMPLETE FURNISHERS OF SUCCESSFUL HOMES
BROADWAY BETWEEN SEVENTH AND EIGHTH

Jacoby Bros.

Saturday Coat Sale

Girls' Fleece Union Suits, 79c
Medium weight, lightly fleeced cotton union suits that are pleasantly soft and just warm enough for comfort. Dutch neck, elbow sleeves, knee length style; sizes 2 to 6 years.
SIZES 8 TO 12 YRS., 98c.

Women's White Cotton Vests, 39c
Fine ribbed bodice and band top vests that deserve to sell for 50c and 59c. Cut generously full and are a particularly good quality. Sizes 34 and 36.
SIZES 40 TO 44, Special, 49c
Main Floor—So. Bldg.—Jacoby's

These Items on Sale Saturday Not Today!

36-in. Serpentine Crepes Under-priced Saturday at 39c
—A berry of new patterns and clever colorings that you will appreciate all the more at their under regular price. Right for Fall kimono.
Second Floor—So. Bldg.—Jacoby's

Many a woman who has been planning to buy her new coat later will promptly change her mind when she gets sight of the coats we feature at these three prices! The values are "miles ahead" of coats you usually think of at \$15, \$35 and \$45.00.

Sports and Dressier COATS at \$15.00
—Made of Furlaine, Downeywool and Bolivia—some have Mandel fur collars. In brown, deer, Bolivia and black. Black Bolivia coats in sizes to 52½.

Flare and Straightline COATS at \$35
—Fabric suede, pinpoint and Bolivia comprise the materials. Some with fur collars and some both collared and cuffed with fur.
Third Floor, South Building—Jacoby's

Just a Limited Number COATS at \$45
—And SUCH coats! Fur collared and some have cuffs and lower-edge band of fur. Tailored of pinpoint, Bolivia and fabric suede.

1000 New Satin Hats at \$5.00
They show a decided tendency to be even closer fitting than the hats launched just a little while ago. Piquant and particularly "wearable" are those with cuff-like brims of gold kid with vari-colored stitching. Touches of gold lace and metallic drapes adorn hats for evening wear—unusually fetching hats turn their brims smartly upward in back and are trimmed with a hand-made gold leather quill.

Compare them with hats you've been seeing right along at \$7.50 and \$8.50. Colors are Burgundy, cuckoo, oakwood, Pablo, new blues and greens, lipstick red and black.

—The new ENSEMBLE HATS with corsage flowers to match included at \$5.00.
The Very Latest! The "ANNIE ROONEY" HAT — Sketched
Third Floor, North Building—Jacoby's

Just in! \$4.50 to \$7.50 Block Print Scarfs, \$3.45
What a flurry of early gift buying these lovely, colorful scarfs will start—and how swiftly they'll be snapped up to add their chic note to this or that smart costume! We bought them much under regular. Rich scarfs of heavy crepe de chine, finished with hemstitching or hand-tied fringe. A wealth of colors in their strikingly effective designs.
Main Floor—No. Bldg.—Jacoby's

Imported Bead Bags \$1.00
Because we bought them greatly to advantage these strikingly attractive bags are marked \$1.00 for Saturday instead of ever so much more! Some have silver finish tops of clever design and others close with drawstrings. Green, iridescent, blue, gray, red, yellow, pink, lavender, sunburst and tan are featured colors. They will entice many a one to start gift buying!
Main Floor, South Building—Jacoby's

69c Allover Lace Dresser Scarfs, 55c
The designs are ever so attractive and their weight assures service. Of sheer imitation flit allover lace with medallions, 17x43 inches. Just a limited number.

\$1.75 Chinese Filet Chair Backs, Special, \$1.00
A heavy lace finished with tasseled fringe. Effectively used on over-stuffed furniture.
Second Floor—So. Bldg.—Jacoby's

Bleached Sheets Reduced to 69c
—72x90 in. sheets made with center seam that is double stitched. Rightfully priced they would be 85c.

Bleached Pillow Cases, 25c
—42x26 in. hemmed pillow cases—a particularly likable quality at a special price.
Second Floor—So. Bldg.—Jacoby's

100 Girls' Hats Saturday at \$1.95
Felts and velvets in a bevy of very becoming and vastly likable styles.
Third Floor—No. Bldg.—Jacoby's

Hemstitched Linen Pattern Cloths, \$3.49
Beautiful Irish linen cloths that have every right to sell at \$4.98. 54x54-in. size with wide hemstitched hem.
Second Floor—So. Bldg.—Jacoby's

These Items on Sale Saturday Not Today!

49c Lingerie Check Voile Reduced for Monday, to 35c
—Forty inches wide, and in such lovely pastel shades as lavender, blues, canary yellow, peach, etc., as well as white. Clever fingers will devise all sorts of fascinating gift "bundles" of this "sweet" voile.
Second Floor—So. Bldg.—Jacoby's

You Will Note that the CORSET SECTION is Now Located in the South Building
—In this more convenient location we count on giving even better service than formerly. And to folks acquainted with Jacoby Corset Service this says volumes in the way of interested, helpful attention.

Corset-and-Brassiere Combinations, Reduced to \$2.98
Three models in lightly boned garments that most acceptably take the place of the corset. Usually these combinations sell for \$3.50 and \$3.98. Fashioned of pink rayon fabric with elastic shoulder straps and elastic sections at hipline. Perfect fitting models for average and stout figures; sizes 32 to 44.

Rengo Belt Girdles, New and Exceptional, \$3.50
Designed to meet the needs of average and stout figures, these well-known girdles are fashioned of good pink broadcloth. Have double boning, graduated front stay and six supporters. One-piece elastic sections over hips. 14-inch length; sizes 28 to 42.
Second Floor—So. Bldg.—Jacoby's

BUSINESS

WESTERN UNION BUSINESS GAINS

Operations in Manufacturing
Districts Increasing

Five New Offices Opened in
Past Twelve Months

Eastern Exchange Tickers in
Service January 1

Continued progress in commercial and industrial activities of Los Angeles and Southern California is reflected in a steady increase in business of the Western Union Telegraph Company in this territory, as reported yesterday by W. R. Williams, superintendent of the Los Angeles office.

During the first nine months of the current year, business transacted through the Los Angeles office of the Western Union increased approximately 11 per cent over the corresponding period of last year. Although transient business was below that of the same period of last year, increased activity in commercial and industrial lines was more than sufficient to offset the loss in business derived from tourist traffic.

Operations of the Western Union in this territory have shown a substantial increase in every month of this year over the same month of the boom period in 1923. Notwithstanding the slight decline in business activity in the Pacific Southwest since 1923, Los Angeles remains in third place among the cities of the United States in point of telegraph and cable business. New York is the leading city with Chicago second. During the past year San Francisco dropped from fourth place to fifth place, Miami, Fla., having moved into fourth place.

SEWER TEXTILE INDUSTRY
The Western Union reports a remarkable increase in business in the manufacturing district, where operations have more than doubled during the past two years. To serve the rapidly growing textile industry in Los Angeles, the company recently opened a fully equipped telegraph and cable office at Eighth and Los Angeles streets, and within the next few months this branch office will be connected with the main office by underground tubes.

As a result of the enormous increase in tonnage handled at Los Angeles Harbor, the cable business of the local office has doubled during the past year, according to Mr. Williams. Because of the growth of business in the harbor district, the Western Union next month will move into larger quarters in the Catalina Terminal Building at Wilmington.

Health of the Western Union in the permanent growth of Los Angeles and Southern California is evidenced in the expansion program outlined last week. The company now has forty branch offices in Los Angeles and surrounding territory connected with the main office at Sixth and Spring streets. Five offices have been opened during the past year, namely, Boyle Heights, Huntington Park, Rossmore Hotel, corner of Washington and Vermont streets, and corner of Eighth and Los Angeles streets. Fourteen of the branch offices are connected with the main office by underground tubes, which facilitate the transmission of messages at the rate of two miles a minute between the branch and the main office.

NEW LOCATIONS
New locations under consideration for branch offices, and which will probably be opened within the next year, according to Mr. Williams, are: Culver City, Chamber of Commerce Building, Eagle Rock, Highland Park, new Pacific Electric Terminal Building, Seventh and Figueroa streets and Seventh and Santa Fe streets. All of the larger motion picture studios have direct-wire connections with the main office. Equipment is now being installed.

Warner Bros. Pictures, Inc.
Three-Year 6½% Notes

HIS COMPANY now ranks as one of the leading purchasing, distributing and exhibiting organizations in the motion film industry. It owns one of the finest and most complete studio plants in Hollywood and, through its purchase of the Vitaphone Co., also, directly and through subsidiaries, the company owns and is building or acquiring theaters in various cities.

holders of these Notes will have the opportunity of receiving 100% in cash at maturity which basis the yield will be 8.03% or more plus 7½ shares of common stock. This feature makes the investment particularly attractive.

Further information upon request.

COTTON FLOWS TO HARBOR

Reduction of Compress Rates Tends to Concentrate Product Here; Important Potential Tonnage

BY EARLE R. CROWE

Through the reduction of compress rates at the harbor, cotton grown in the Pacific Southwest will now move in a substantial volume to this point for concentration. The movement of cotton in this direction is the result of a long campaign waged by the cotton merchants of Los Angeles, who have constantly protested against the State of affairs that impelled the concentration of the staple at widely separated points in the interior.

In recognition of the contention advanced by the cotton merchants, the Board of Harbor Commissioners on Wednesday reduced the compress charges 25 cents a bale, bringing the charges down to 75 cents. This, the cotton merchants assert, places Los Angeles Harbor on a parity with the interior points, if motor trucks are to transport the cotton from the fields to Los Angeles. There is still a slight advantage, if railroad transportation is used, in compressing in the interior and shipping overland to Galveston or New England points.

PORT NATURAL CENTER
The merchants in Los Angeles, who handle four-fifths of the cotton grown in the Pacific Southwest, have been working for some time to concentrate the cotton at the harbor, but the fact that the railroad rates are more favorable for direct rail shipment to the Gulf or New England, has been the chief factor against them. They have favored Los Angeles as a concentration point, because the city is the natural center of the cotton-growing territory, and because a concentration point at tide-water is more advantageous to the buyers than several concentration points in the interior.

In selling the cotton it is necessary to compress according to specifications laid down by the various mills, and the cotton merchants must fill the orders with cotton of various grades purchased at several different points. Where the compressing is done in the interior it is frequently necessary to tear down the bales and recompress to meet the specifications of the buyers. For this reason the stalled for the new stock exchange tickers, which, when completed, will give Los Angeles four distinct ticker services as follows: New York Stock Exchange, Chicago Board of Trade, New York and New Orleans cotton exchanges, and the Los Angeles Stock Exchange. The service will be identical with that in New York. Quotations will be printed on the tape in offices of local subscribers within ten seconds after the transactions are made on the various exchanges.

With the installation of the new ticker service, the company has found it necessary to obtain additional space in the main office building, and has leased offices in the Third Building, which is located in the Catalina Terminal Building at Wilmington. The Los Angeles office of the Western Union is a relay position for the entire Pacific-Southwest. Approximately 1000 employees are reported at the rate of \$47,750 a year, while maximum annual interest charges are \$29,250 a year. The building will be adequately insured against loss from fire or earthquake.

The trust indenture will provide that one-twelfth of the annual sinking-fund requirement, together with one-sixth of the semiannual interest charge, must be paid to the trustee every month in advance. The bonds will be exempt from personal-property tax in California and the company agreed to pay the 2 per cent normal Federal income tax.

The trust indenture will provide that one-twelfth of the annual sinking-fund requirement, together with one-sixth of the semiannual interest charge, must be paid to the trustee every month in advance. The bonds will be exempt from personal-property tax in California and the company agreed to pay the 2 per cent normal Federal income tax.

Option for Sale of Marine Oil is Latest Report
Negotiations are under way for the acquisition of control of the Marine Corporation by one of the larger oil companies on the Pacific Coast. It was reported yesterday on the floor of the stock exchange. As the gossip ran, several of the large stockholders have agreed to option their stock for a thirty-day period, during which the details of the deal will be discussed by the interested parties.

Several stories were in circulation concerning the name of the possible purchaser. Pacific Oil is generally favored, although United Oil is again mentioned prominently. The basis for the Pacific Oil connection is found in the affiliation of two directors with the Marine, who are supposed to have an official association with the Pacific Oil Company. More important, however, the existence of a fuel-oil contract between the two companies that, according to street gossip, is working out unfavorably for Pacific and which the latter company might like to have out of the way.

This contract calls for the purchase by Pacific Oil of the entire fuel-oil output of the Marine refineries at a price 10 cents above the posted quotation. Fuel oil is now a drug on the market and it is understood that the contract, which runs for nearly ten years, is a burden to the Marine company, which rather than acquire in other hands through the sale of the Marine Corporation to one of the larger oil combinations.

Officers of the Marine Corporation refused to comment on the story.

\$450,000

Auditorium Realty Company

(Auditorium Hotel, Fifth and Olive)

First Mortgage 6½% Sinking Fund Gold Bonds

(Closed Mortgage)

Dated October 1, 1925.

Due October 1, 1942.

Semi-annual interest payable April 1 and October 1 at the Citizens Trust & Savings Bank, Los Angeles, or the Anglo & London Paris National Bank, San Francisco. Principal payable at main office of trustee. Bonds are callable in whole or in part at 108 and accrued interest for the first five years, at 102 for the next five years, and 101 thereafter. Coupon bonds. Denominations \$1000 and \$500. Interest payable without deduction for Normal Federal Income Tax up to 2%.

CITIZENS TRUST & SAVINGS BANK, LOS ANGELES, Trustee

Exempt from personal property tax in California

INVESTMENT FEATURES

SECURITY: These bonds will be secured by a first closed mortgage or deed of trust on the valuable business property owned in fee, at the northwest corner of Fifth and Olive Streets, Los Angeles, California, together with the modern six-story and basement hotel and store building situated thereon. The property has frontage of 1½ block, or approximately 169 feet on Fifth Street and approximately 60 feet on Olive Street, being directly across Fifth Street from the Biltmore Hotel and opposite the northwest corner of Pershing Square. This location is a very valuable one, space around the square, which is the only park in the downtown business section, being limited and in constant demand.

VALUATION: The land and building have been recently valued by three well known independent appraisers at a minimum of approximately \$800,000. This bond issue of \$450,000 therefore constitutes an indebtedness of about 56%.

EARNINGS: Actual net earnings of the property from leases now in force, after taxes, vacancies and insurance, but before depreciation, are reported at the rate of \$47,750.86 per year, while maximum interest charges are \$29,250 per year. The company expects to close additional leases in the near future which will add \$8,400 yearly to rentals now being received, thereby bringing the net income up to approximately \$56,000 per year.

LOCATION: This corner, as stated above, is a very valuable one, both Fifth and Olive Streets being among the most important downtown thoroughfares. The property itself is surrounded by improvements of the highest type, it being estimated that over \$21,000,000 have been expended for Class "A" structures in the near vicinity during the past few years, which insures the stability of values along these streets for a long period of time. Over \$5,400,000 is now being expended for additional structures within one block of this property which further emphasizes the continued importance of this portion of the downtown business section.

INSURANCE: The building will be adequately insured at all times against loss by fire and earthquake for the benefit of the bondholders and all policies must be deposited with the Trustee.

LEGALITY AND TITLE: All proceedings leading up to and including the issuance of these bonds will be under the direction of Messrs. Gibson, Dunn & Crutcher for the underwriters and Messrs. Page, Nolan, Rohe & Hurt for the Company. All bonds offered subject to receipt from Commissioner of Corporations of California of permit to issue and sell same. A policy of title insurance in the total amount of the bond issue evidencing title to the property free and clear of all encumbrances except the lien of current taxes and that of this bond issue will be issued by the Title Insurance & Trust Co. of Los Angeles.

EXPORTS TO GERMANY GAIN

A remarkable expansion of American sales to Germany is revealed in recently published foreign-trade figures of Germany, reports Assistant Commercial Attaché Douglas Miller, Berlin, in a report to the Department of Commerce. In the first six months of 1925 Germany imported from the United States goods valued at \$1,554,000,000 marks, as compared with \$79,000,000 marks for the same period of 1924. America's share of total German imports was thus raised from 17 per cent to 25.5 per cent. On this basis the complete year's figures apparently will show that American products have acquired a decided advantage in this market.

According to the official German returns more than one-fifth of Germany's imports are from the United States, and more than one-third of its foreign trade is with the United States. Great Britain and the Netherlands. Imports from Great Britain during the first six months of this year aggregated \$71,000,000 gold marks, as compared with \$48,000,000 marks for the corresponding period of 1924. From the Netherlands amounted to \$36,000,000 marks, as compared with \$18,000,000 marks. Accordingly the United States sells to Germany approximately three times as much as does any other country, and its total trade turnover is more than \$60,000,000 marks in excess of the nearest competitor, Great Britain.

German sales to the United States during the same period amounted to \$29,000,000 marks, or 4 per cent of total German exports and approximately 21 per cent above the corresponding 202,000,000 marks of last year. Great Britain and the Netherlands were the most important customers of Germany in the same period, taking \$48,000,000 marks and \$36,000,000 marks, respectively. From the total German imports of the period, amounting to \$234,000,000 marks, and the exports, amounting to \$1,554,000,000 marks, there has been left an unfavorable balance of 2,704,000,000 marks, of which, however, 429,000,000 marks represents imports of gold and silver.

An examination of the foreign trade in the products constituting the output of the chief export industries of Germany reveals an outlook even less promising than the trade in general. If the exports of the products of such export industries are compared with the imports of similar products for the first six months of 1925, it is found that an adverse balance of 1,300,000,000 marks may be anticipated for the whole year. It is evident, the department states, that while German industry is making every effort to improve its position in foreign markets, its foreign competitors have not only held their own abroad, but have even successfully invaded the German market. This fact is reflected in import figures of machinery, automobiles, textiles and toys, in which lines Germany is one of the foremost manufacturers.

A diminution of this danger of increased imports has been effected by the passage of the tariff bill in August, 1925. A decline in imports of manufactured goods has since been a noticeable and encouraging feature of the situation. Such competition in the past on the domestic market, in spite of tariff rates which even then were high, is evidence of the high production cost and price levels prevailing in Germany. The immediate necessity of thorough financial and engineering reorganization to lower production costs is everywhere conceded.

EXPORTS TO GERMANY GAIN

A remarkable expansion of American sales to Germany is revealed in recently published foreign-trade figures of Germany, reports Assistant Commercial Attaché Douglas Miller, Berlin, in a report to the Department of Commerce.

In the first six months of 1925 Germany imported from the United States goods valued at \$1,554,000,000 marks, as compared with \$79,000,000 marks for the same period of 1924. America's share of total German imports was thus raised from 17 per cent to 25.5 per cent. On this basis the complete year's figures apparently will show that American products have acquired a decided advantage in this market.

According to the official German returns more than one-fifth of Germany's imports are from the United States, and more than one-third of its foreign trade is with the United States. Great Britain and the Netherlands. Imports from Great Britain during the first six months of this year aggregated \$71,000,000 gold marks, as compared with \$48,000,000 marks for the corresponding period of 1924. From the Netherlands amounted to \$36,000,000 marks, as compared with \$18,000,000 marks. Accordingly the United States sells to Germany approximately three times as much as does any other country, and its total trade turnover is more than \$60,000,000 marks in excess of the nearest competitor, Great Britain.

German sales to the United States during the same period amounted to \$29,000,000 marks, or 4 per cent of total German exports and approximately 21 per cent above the corresponding 202,000,000 marks of last year. Great Britain and the Netherlands were the most important customers of Germany in the same period, taking \$48,000,000 marks and \$36,000,000 marks, respectively. From the total German imports of the period, amounting to \$234,000,000 marks, and the exports, amounting to \$1,554,000,000 marks, there has been left an unfavorable balance of 2,704,000,000 marks, of which, however, 429,000,000 marks represents imports of gold and silver.

An examination of the foreign trade in the products constituting the output of the chief export industries of Germany reveals an outlook even less promising than the trade in general. If the exports of the products of such export industries are compared with the imports of similar products for the first six months of 1925, it is found that an adverse balance of 1,300,000,000 marks may be anticipated for the whole year. It is evident, the department states, that while German industry is making every effort to improve its position in foreign markets, its foreign competitors have not only held their own abroad, but have even successfully invaded the German market. This fact is reflected in import figures of machinery, automobiles, textiles and toys, in which lines Germany is one of the foremost manufacturers.

A diminution of this danger of increased imports has been effected by the passage of the tariff bill in August, 1925. A decline in imports of manufactured goods has since been a noticeable and encouraging feature of the situation. Such competition in the past on the domestic market, in spite of tariff rates which even then were high, is evidence of the high production cost and price levels prevailing in Germany. The immediate necessity of thorough financial and engineering reorganization to lower production costs is everywhere conceded.

BOND QUOTATIONS

Market Breadens

NEW YORK, Oct. 23.—Trading continued to broaden in today's bond market, which gave manifesta-

tions of underlying strength. Foreign bonds lost ground on profit-taking, but prices of domestic issues registered improvement, although buying was of a more selective character. A rally in Mexican obligations based on reports that a modified debt agreement had been submitted to the Calles administration for approval was the most interesting feature of the day's dealings. Gains of 1 to 3 points carried most of the assisted bonds back to around the year's high levels.

The threat of war between Greece and Bulgaria, following the outbreak of fighting along the border, caused a sharp reaction of almost 5 points to Greek government bonds. Realizing sales brought reactions in the German issues, which yesterday attained record high levels, while French bonds reflected uneasiness over the Cabinet crisis resulting from the debt funding situation and the break in French francs to a new low level for the year.

Gains outnumbered losses among corporate bonds, although no striking price changes were recorded. Buying activity was most pronounced in New York Central and Chesapeake and Ohio, re- turning 1/4, Pennsylvania 3/4, Erie prior 1/4, International Paper, Pan-American Petroleum and Sinclair Oil Co. These ad- vances were offset by the heaviness of Norfolk and Western convertible 4s, Canadian Pacific 4s and Chesapeake and Ohio 4s.

Although inquiries regarding a loan for the city of Tokyo have been placed before bankers, it was learned that negotiations had been deferred until later in the year.

Public offering will be made tomorrow of \$5,000,000 United States Smelting and Refining Company ten-year 5 1/2 gold notes at a price of 98. The underwriting syndicate is headed by Lee, Higginson.

Following are yesterday's high and closing prices of bonds in the New York Stock Exchange:

NEW YORK CURB

Utilities Active

NEW YORK, Oct. 23.—Revival of activity and strength in the public utilities was one of the outstanding features of today's rising curb market. Trading was again on an unusually broad scale, total stock sales running above \$60,000,000, while bond sales exceeded \$1,250,000.

American Light and Traction, which reported record-breaking earnings for the first nine months of the year, soared 6 points to a new peak at 37 1/2, or just double the price at which it opened the day's gain on profit taking. United Light and Power closed 2 1/4 points higher at 18 1/4, in reflection of the purchase of new properties.

National Power and Light, United Gas and Electric, and Western Power closed 2 to 4 1/2 points higher.

On the other hand, a firm undertone with increasing activity noted in the South American issues. Mexican-Panuco reached the highest price in several years on reports that an offer had been made to develop part of its British Guinea oil concessions, by one of the large Standard Oil companies.

Further strength developed in the electrical refrigeration issues, Kelvinator touching a new top at 21 1/2, after having been in the inquiry for Republic Truck on a report that earnings for the first eight months were equivalent to 1924.

General Electric was active, the stock climbing over 5 points to a new high record at 67, while the B was again reactionary.

TAX LABEL SUIT ON MAGICIAN

Man Who Cleverly Hid His Tricks Now Accused of Hiding Returns

Alexander the Great, internationally known magician, for years has been pulling rabbits from hats, flowers from thin air and demonstrating his powers of reading the mind. So well did he conceal his tricks from his audience that the more credulous marveled as if in the presence of a supernatural being.

Yesterday Alexander, who in private life is Claude A. Conlin, 3109 South Oxford avenue, and his wife, were made defendants in an income-tax label suit by the government for the sum of \$153,503.34. It is asserted in the suit that that amount is due the government for income tax for the years of 1920 to 1924, inclusive.

the presence of the Banta Company, presenting a group of the leading favorites of the station from 8 until 10 o'clock to introduce the Banta Company, for which they have recently been named distributors on the Pacific Coast.

The lengthy program was filled with widely diversified numbers, instrumental and vocal, given by the Arion Quintet; Sara Carlin, soprano-soloist; Jennie Durkee, mistress of the ukelele; the Orpheus Four male quartet and Lois Miller, soprano, with Vera Thompson, contralto, in duets.

One of the features of the evening was the singing of the soprano solo, "Glenn's Mia," of Fritz, by Sara Carlin, accompanied by the Arion Quintet. This song was greeted by a spontaneous wave of applause, being exquisitely rendered. Miss Carlin also sang "Song of Songs," by Moys; "Kash-

HATCH GRAHAM, BARJO AND SINGER

'SONNY' JAMES HUGHES

Women's Republican Club Gives Matinee

matinee, by Finsen, and "Calm as the Night," by Bohm.

During the course of the evening President Banta, head of the company sponsoring the concert, made a brief talk before the microphone, being followed by the Orpheus Four quartet, the leading group of male singers of the station, who again scored a success with their "The Tear," by Witt; "Robin Hood," by Beethoven, and "Sunset," by Van de Water.

Jennie Durkee, recognized as one of the leading exponents in the art of the ukelele, was present at KHJ after a lengthy absence, and again demonstrated her mastery of this small Hawaiian instrument with solo numbers, including "The Jolly Ukelele," her own composition; "Melody in F," by Rubenstein, and several others.

The vocal duet numbers by Lois Miller, soprano, and Vera Thompson, contralto, accompanied by Daisy Sinclair, were profusely

praised, including their singing of "West of the Great Divide" by Ball and "Pala Moon," by Logan. Lillian Ariel, concert pianist with the quintet, was also lauded for her solo, "Sparks," by Moszkowski.

YOUTHFUL STARS

Last evening's children's hour was another frolic of the youthful stars in the studio, with "Cousin Jim" Beardsley acting as guest announcer for Little Dickie Brandon, screen juvenile, Joyce Coad, "Little Red Riding Hood," Sam Midelman, 8-year-old whistler; "Jumpy" Ferguson, 4-year-old singer with ukelele, and Blanche Silbergilt, child reader pupil of Winifred Pollard. Dr. Phillip M. Lovell followed the program with his weekly health talk, speaking on "Ecstasy, Its Causes and Cure."

Another daytime treat was given radio patrons by the Pacific States Electric Company from 2:30 until 3:30 o'clock, presenting Edward Nova, leading baritone, and the Arion Trio. They gave groups of classical and sentimental selections, many in response to requests.

One of KHJ's well-known figures, H. M. Robertson, will be one of the important persons at the annual dog show, which opens today in Hollywood. Mr. Robertson is one of the most widely known dog authorities on the Pacific Coast, and will have a large exhibit. He speaks every week before the tower microphone.

Interest has been steadily rising in the unique series of bridge games to be started Tuesday afternoon from the station when the first of twenty-four games, arranged by leading experts of the country, will be played by radio. The hands for this first game will be shown in Sunday's feature section of The Times, so that bridge enthusiasts may try their own skill first, and then on Tuesday see how the cards are played by the experts.

Listeners to the special concert from 2:30 until 4 o'clock, this afternoon sponsored by the Federate Women's Republican Club, will hear the song written by Ida R. Newman, the state secretary. This is "Dardling," and will be sung by Karl Brandenburg.

K-H-J The Times

TODAY'S PROGRAM

7 to 7:15 a.m. "Setting Up Exercises" by Prof. Barclay L. Severns.
7:15 to 7:30 a.m. Leighton's Arcade Cafeteria Orchestra, directed by Jack Cronshaw.

12:30 to 1:30 p.m. Program of dance music by Rod Loring's Oaks Tavern Orchestra, and Betty Abbott, girl baritone, courtesy of Oaks Tavern.

2:30 to 3:30 p.m. Matinee program sponsored by the Pacific States Electric Company, presenting the Trian Trio: Grace Curry, harpist, and Karl Brandenburg, tenor.

3:30 to 4 p.m. Program sponsored by the Federate Women's Republican Club.
4 to 4:30 p.m. Leighton's Arcade Cafeteria Orchestra, directed by Jack Cronshaw.

6:30 to 7:30 p.m. Children's program presenting Prof. Walter Byrnes Hartog, Radio Historian; "Uncle Remus," guest announcer; Simon Waronker, 10-year-old violinist; Bettelmaier Pfeiffer, singer and reader; Billy Hill, 7-year-old violinist; Mickey Delano, 8-year-old pianist; Viola Von, "Wild Rose" of JCH; "Sonny" Jane Hughes, screen juvenile and the Piggly Wiggly Hawaiian Trio.

7:30 p.m. Gladys De Witt will talk on "Romance of the Santa Fe Trail."

8 to 10 p.m. Program through the courtesy of the Western Air Supply Company. Presenting Columbian Trio (Hernandez Brothers); Hatch Graham, banjoist and singer; Beatrice Nevada, contralto; Marcia Obuchon, pianist and Dan Gridley, tenor.

10 to 11 p.m. Art Hickman and his Blumore Dance Orchestra.

GLADYS DE WITT, "ROMANCE OF THE SANTA FE TRAIL TALKS"

MURPHY FREED IN BRIBERY CASE

(Continued from First Page)

Trial Deputy District Attorney Fricks and Dep. Dist. Atty. Ryan.

DEADLOCK INDICATED

The jury actually deliberated for twelve hours and thirty minutes of the twenty-six hours they were out. During that time there was every indication of a permanent deadlock, but the verdict was reached just as they were about to be discharged, as was the case in the Kid McCoy jury, which compromised on a manslaughter after seventy-eight hours.

According to Foreman Russell, fourteen ballots in all were taken while the jury was out. The jury stood 7 to 5 for conviction when it was sent to retire for the night on Wednesday.

On the first ballot, yesterday morning, it was stated by Russell, the vote stood 9 to 3 for conviction, two more votes being cast than evened the majority side. On the last ballot, which was taken a few minutes before the foreman knocked on the door, the vote was unanimous. Russell said the jury voted to exonerate Murphy from the start of the deliberations.

"We felt that Downes and Fitzpatrick deserved leniency because it was their first offense," Russell said. "The jurors felt that Murphy had not been approached and that Downes and Fitzpatrick, after having been approached, laid themselves open. The jurors got along fairly well during the time they were out."

Mrs. Louise Fleming admitted she was one of the five who held out for acquittal.

"I wanted to be absolutely sure that I was right before I voted guilty," she said. "This is the first time I have served on a jury and I hope it is the last. I only hope that I have done the right thing."

WOMEN UNDECIDED

It was learned from Mrs. Fleming that the controversy in the jury room, which explains the deadlock, hinged upon the testimony of Downes. At the request of the jury the court twice read this testimony.

Foreman Russell, it was learned, was one of the five who held out on Wednesday. The other four were women.

Other than to say she had voted guilty from the beginning, Mrs. M. Tomlinson would make no further statement. Mrs. Ada G. Lawrence also voted guilty from the start, she said. She made the statement that she was under the impression, in voting guilty, that the trial judge could consider the request of the jury for leniency in pronouncing sentence.

According to Mrs. Lawrence, two women were the last holdouts. She declined to state their names. Miss Jessie L. Newman said she thought she did the best she could under the circumstances.

While a majority of the jurors were willing to discuss the case and to tell of the circumstances under which the verdict was reached, two women refused to talk and brushed past reporters, court attaches and attorneys, and hurried out of the Hall of Justice.

When it looked as if no verdict would be reached, Dist. Atty. Keyes and his chief deputy, Burn Pitts, said that pressure for an immediate retrial would be begun.

Downes and Fitzpatrick were escorted to the Council last June, being swept into office by the aid of the Croyer campaign forces. Neither had ever had experience in politics before they took office. He had become fairly wealthy with his brothers in the contracting business. Fitzpatrick had spent most of his time holding office in labor unions and fraternal associations.

They took their seats in the Council July 2, of this year. On August 31 they were indicted.

Some time before the new Council of the city was sworn in, William C. Hodges and certain of his associates were successful in gaining a franchise whereby they would be able to construct a sidewalk and pedestrian tunnel under the Second-street tunnel. When the new Council stepped in, it was found that they must have an ordinance publishing the granting of the franchise, the last turn of red tape necessary.

PASSAGE OPPOSED

Downes, actively, and Fitzpatrick, in a passive manner, opposed the passage without thorough investigation. Downes declared the city would get little or nothing out of the deal, while the city's tunnel might be endangered.

Tuesday at the trial showed that Hodges talked to Murphy and was President of the Council Workman and Councilman Meera, who directed him to see Pitts and Keyes. The result was that Hodges went to the City Hall the next morning, followed shortly thereafter by Fitzpatrick, while four detectives waited in the hall.

MONEY RECOVERED

Hodges testified at the trial that he bribed the two Councilmen with \$1000 each to withdraw their opposition. When he left the office the detectives rushed in on the Councilmen and recovered the money from each, although they made an effort to dispose of the two little rolls.

Downes took the stand and testified that he accepted the money under the impression that it was a belated campaign contribution and that other Councilmen had done the same.

"If I don't see my clear to voting favorably for your ordinance

HINT JURY QUIZ IN JULIAN CASE

(Continued from First Page)

they were victims of "bucket shop" operators.

Continuances of State Corporation Department's check of local brokers' books yesterday will probably result in the refusal of the Corporation Department on December 31, next, to renew the licenses of approximately a dozen brokers, according to Corporation Department deputies working on the case.

Deputy Commissioner Fraul returned yesterday from San Francisco, where he has been making an investigation of the extension of the local asserted manipulations in northern parts of the State. He refused to divulge any information other than that he had discovered some irregularities and was closeted all day either in conference with Commissioner Daugherty or in making out a confidential report.

For the first time in Roston's history a woman is an active candidate for Mayor of the Hub City.

PROTECTION

PAINT-PROTECTION against depreciation and fire!

And be certain that your paint protection is reliable and dependable as your fire insurance.

Two-thirds the cost of a painting job is lost. Hence, to use the best paint adds but little to the first cost. It is cheapest in the end.

Pure Prepared Paint and Phoenix Pure Paint are made of only pure linseed oil, pure white lead and pure pigments. "Cheaper" paints are made of cheap materials, hence the film they form cracks and "falls up"—it doesn't last and it doesn't protect.

Ask any Fullers Dealer. Write for free book, "The Home as Others See It"—illustrated in color suggests many color schemes. For all large jobs call a master painter.

More New Innovation Collar Shirts

So great has been the demand for the INNOVATION shirts in the National Shirt Shops throughout the country, that the manufacturers have had to give us their full capacity.

That is the reason you'll find genuine INNOVATION shirts ONLY at N. S. S. Stores.

Every new shipment has been styled ahead of the market by weeks—new shirtings bought as soon as offered for advance selections.

So here's a double value—an exclusive collar in the newest quality shirtings.

Cash buying power again contributes!

New patterns in the shirt that has brought neat looking SOFT COLLARS into style again. The INNOVATION collar—the non-wrinkling, non-wilting SOFT Collar—has been the most popular single improvement in collar making in recent years.

Now come the new patterns—combinations that will make everyone sit up and take notice. And we will not hesitate to predict that these will carry the INNOVATION shirts to greater heights of popularity than ever before.

See them in the windows—or better still, come in and let us show them to you. They're just what you'll want to put the finishing touch on the fall and winter wardrobe.

LOS ANGELES (Loce Ahng-hayl-ais)

MEMBER OF THE ASSOCIATED PRESS
The Associated Press is exclusively entitled to the use for publication of all news credited to it or otherwise credited to this paper and also published here within.

The Times aims at all times to be accurate in every published statement of news and to give the most important and accurate statement of the facts of the day. It is not responsible for the accuracy of statements published by others.

THE FRUITFUL
With the whole world in favor of peace, what is the matter with establishing the lady in her temple?

STILL WE LOVE IT
The jazz age brought us more than hashed music, but it remained for the radio to serve it to us scrambled.

HAVING THE DOUGH
There is now over \$1,000,000,000 on deposit in the Los Angeles banks. This is a \$1,000,000,000 county in various ways—including the way of the receiving teller.

IF DUES WERE PAID
Often the man who imagines that the world owes him a living would find, if he only had a forkful nowadays, that what he really had coming was a killing.

THE BIG TIME
Advises from Hollywood are that "Ben Hur" will be released on Christmas Eve. There's a chance that some of the rising generation will think he is Santa Claus.

COLD COMFORT
A good many people back East are excited about the coal outlook, but the miners can be counted on to do their very best to keep them cool.

MODERN SERVANTS
It's hard to understand why so many women, asking for divorces, complain that their husbands treated them like servants. It isn't every wife who is handed a good salary every Saturday night.

MAKING HELIUM
Helium gas, heretofore expensive obtained from Texas wells, is now being produced by German chemists from highly heated sand. The cheapening of helium gas is one of the prime factors in the development of the dirigible.

LUNACY AND GENIUS
A lunatic in an Ulster asylum has amazed the asylum committee by his engineering accomplishments. The regular engineer resigned and the lunatic took his place, doing things his predecessor thought impossible. It has been said before that genius is akin to madness.

THEIR PEACE PATH
The Winnebagoes want to leave their Nebraska reservation and walk to Florida, where their leaders have arranged to occupy unused lands belonging to the Seminoles. Not the war path, but the peace path calls them, according to the petition sent to Washington. They are not even interested in Florida real estate. But a good deal of red tape will have to be unwound before the tribe, numbering about 1200 individuals, will be permitted to take to the peace path.

THE WORST HUNDRED THOUSAND
One hundred thousand Iowans of unsound mind have been listed by the State authorities as unfitted for marriage. But quite frequently it isn't the feeble-minded but the "strong-minded" who make a wreck of marriage. None, however, of those 100,000 Iowans of unsound mind who have been listed as ineligible for marriage live in California. The California Iowans all showed their soundness of mind when they moved out here.

HER MIND IS CLEARING
There used to be an idea that the hard work and extended hours that fell to the lot of the farmer's wife drove her mad. The facts do not seem to be in accord with this proposition. In one of the States in which the town and rural population is about equally divided the insane asylum for women houses 172 from the farm and 839 from the city. In other States the mental delinquencies among farmers' wives are proportionately less than among the women of the city households. The farmer's wife bears up better than her jazy and feverish sister of the city.

STUPID REFORMERS
The much-discussed question of capital punishment probably has no arguments, pro or con, that have not been presented over and over, and it will be somewhat difficult to find a mature man or woman whose opinions on the subject are not fully formed. Miss Vivian Pierce, secretary of the league that would abolish the penalty, however, somewhat stupidly assumes that "all thinking people" are in favor of abolition. Inasmuch as four States for a season tried the plan of coddling murderers and they re-established capital punishment, and as forty States of the Union fail to agree with her measure of American mentality, she might be more liberal in her classification. But her attitude coincides with that of the average near-reformer. They too frequently are single-track folks who do a cause more harm than good when they open their mouths and have yet to learn that berating these persons they hope to influence is truly stupid.

WINGS OF COMMERCE
All signs point to a tremendous expansion in the near future of American commercial aviation. The airplane has reached the stage of development the automobile achieved twenty years ago and from now on the science of flying promises to equal the record made by the science of motoring in the last two decades. A comparison of the first horseless carriage with the latest model of the modern automobile is no more startling than will be the airplane of 1940 contrasted to the flying machines of 1920.

Plans made by the United States Post-Office Department for extending and bettering the air-mail service may have given American commercial aviation the impetus everywhere discernible in the increased activity among airplane manufacturers and the new interest awakened in air lanes and air travel. At any rate, the slump in commercial aviation that has existed here since the Wilson administration's war-plane building fiasco has disappeared and American business and initiative have at last made themselves felt in stirring peace wings to American commerce.

The deal just completed between the Post-Office Department and Western Air Express, Inc., to start a daily air-mail service between Los Angeles and Salt Lake City by January 1, 1936, marks another important forward step in the progress of commercial aviation, one that will be of inestimable benefit to Southern California. The speeding up of mail connections between Los Angeles and eastern points should, if our business houses take full advantage of the benefit conferred, lead to an increased volume of trade throughout the Southwest. And indirectly it points to another field of industry opening for Los Angeles as a similar field opened for Detroit twenty years ago.

Harris M. Henshaw, general manager of Western Air Express, Inc., has announced his intention of building the Douglas planes for this new air service at the Santa Monica plant of Donald Douglas; and officials of the company state that passenger service will follow the mail service in due course of time. The day is not far distant when the building of airplanes will constitute a national industry of great value to the community that captures the giant share of it. When airplanes begin to compete seriously with automobiles for the travel and transportation of the American public the city that manufactures them will receive the same reward that Detroit has won through establishing itself as the world's greatest motor-car-building center.

Of course, the constructing of a few planes for the Post-Office Department is not in itself a particularly spectacular event. Possibly it will attract as little attention as did the formation of the Ford Motor Company to build better "horseless carriages" twenty years ago. Yet that apparently negligible organization has in just one-quarter of a century become one of the richest men in the world, while the capture of the automobile industry has sent Detroit up to fourth place among the cities of the United States.

Before the babies born this year have reached voting age the airplane and dirigible industry will have done for some other American city what the motor car has done for the capital of Michigan. Such an idea is no more to be sneered away by the doubting Thomases of this automobile era than was the notion that the garage would some day replace the livery stable—a notion highly ridiculous twenty-five years ago to the owners of horses and buggies.

Which American city will be known as the "aviation Detroit" and the creator of multimillionaire airplane builders by the time wings have displaced wheels as completely as rubber tires have already displaced horseshoes. The city that gets away today to a flying start will in time occupy this highly desirable position.

Is there any reason why that city should not be Los Angeles? Are there not, indeed, many cogent reasons why it should? The subject, at any rate, is worthy the consideration of our business men and financiers while the airplane-building industry is still in its infancy. When that industry has grown to its full stature it will be too late to take it away from the city whose faith and vision took care of it during its period of doubt and growth.

"LITTLE OLD NEW YORK"
While generally commendable, sectional patriotism sometimes degenerates into sectional prejudice and engenders a local enthusiasm that carries individuals and communities so far that they have to walk back. Lesser communities are more inclined to stress the shortcomings of a metropolis than to take justifiable pride in its growth and achievements. To the eye of outsiders, the faults are exaggerated and virtues are disregarded.

Come are the days of "Little Old New York." The great metropolis is one of the wonders of modern times. It is now first in wealth and influence and second in population among the cities of the world. In such fertile industrial soil weeds grow along with the flowers; but the flowers are there, growing more luxuriantly perhaps than anywhere else on earth. New York City is now the financial center of the six continents and the seven seas, and all the lesser American communities enjoy a greater degree of prosperity on account of the financial and industrial achievements of the American metropolis.

With a population of 6,000,000 New York City consumes more electricity than twelve European countries combined, with a population of 109,000,000. The electrical consumption of the State of New York equals that of the whole of Great Britain and is greater than that of either Italy or France. While New York has its slums, the general standard of living is higher than that of any great European or Asiatic city. Life for the poor is more tolerable; there are more modern appliances in the humblest apartments, and the luxuries for those that can afford them are without parallel.

Westerners who visit New York find much that is different from their home communities and they fall into the error of thinking that which is different is wrong. Some fall to find fault to commend; but to the unprejudiced it must be apparent that the fault is more often with the observer than with the metropolis. New York would not occupy its present proud and enviable position if it were all wrong. The brains and industry of the world are there. It is a cosmopolis of peoples, and, despite its Tammany Hall, it is the American city

"How the Old Home Is Changed!"

Just About It

by James J. Montague

BEFORE ATTENDING THE NEW HAMLET.

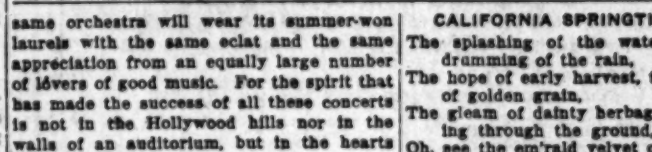

Although I don't exactly gloat on Hamlet in a dinner coat. Or in plus fours, well creased and new. Run foolish young Laertes through; I'd be annoyed, dismayed, almost. Were I to view his sire, the ghost. About the gray old castle roam— A two-quart hat upon his dome.

I have not witnessed, I confess, These Shakespeare plays in modern dress. But since I was a tiny lad A reverence for ghosts I've had. And still I think they should be decked In garments which show due respect To spirits of aldermanic girth. Doomed for a time to walk the earth.

For Rosenbergs and Gullandern I have but very small concern, Direct them out of their turbelows. And tog them out in golfing clothes. Or give them each a fancy vest— And I'd not be a whit distressed. For these two crafty playing gents Are of but little consequence.

But when the ghost stalks on the scene He ought to wear a ghostly mein, And not possess the snappy air That pudgy business persons wear. When he comes forth from out the night, I want to shiver with fright— And I'm sincerely hoping that He doesn't wear a two-quart hat.

(Copyright, 1935, by the Bell Syndicate, Inc.)

same orchestra will wear its summer-wear laurels with the same eclat and the same appreciation from an equally large number of lovers of good music. For the spirit that has made the success of all these concerts is not in the Hollywood hills nor in the walls of an auditorium, but in the hearts of the men and women of the Southland.

This afternoon in the Philharmonic Auditorium the great orchestral aggregation, made possible by the generosity of W. A. Clark, Jr., handled by the popular favorite, Walter Henry Rothwell, and capably managed by Caroline E. Smith, will start the Philharmonic season, 1935-1936. The indoor winter programs will be no whit behind the outdoor summer numbers, nor will the names of the special artists engaged be dimmed by the memory of the famous performers heard in the Bowl at the close of the last season. For seven years the Clark musicians have been building up the musical tastes of Los Angeles and from now on that high musical taste can be counted on to support one of the chief agencies in creating it.

For the musical taste of Los Angeles is too high to be commercialized by the paid agents of narrow interests or to be subdued by the dictation of any organization. It was founded on the independent generosity of one citizen and it rises above the clouds of petty partisanship.

LETTERS TO The Times

A Grateful Heart

LOS ANGELES, Oct. 20.—(To the Editor of The Times:—) Kindly give me enough space in your valuable paper in which to voice my opinion of the treatment one receives in the Los Angeles General Hospital. I but recently returned from a sojourn there and feel sure, could the disgruntled taxpayers of this vicinity realize what a marvelous institution it is, they would undoubtedly feel glad and proud of their contribution to the maintenance of it. I received the most kindly, cheerful, friendly and efficient treatment, from the head doctor to scrub woman, that was ever accorded me and noted others received like. I would to God I had at least a couple million to donate to said hospital, as it is bestowing upon suffering humanity one of the greatest blessings ever. My daily prayer is for the welfare and continued health of all those workers who so cheerfully and bravely give their days and nights to the alleviation of pain and disease. An erstwhile inmate. L. L. SKINNER.

From One on the Spot

MIAMI (Fla.) October 9.—(To the Editor of The Times:—) I am inclosing herewith an editorial appearing this day in the Miami Herald requesting the Californians in Florida to state exactly what is going on without exaggeration. Having been invited to write, I will call attention to some things which to my knowledge are facts. (1.) The religious situation in now existing in the city of Miami, Fla., cannot be any worse. The misdeeds of the K.K.K. is the law of the land.

(2.) The housing condition is about as bad as can be expected. It is impossible for a person in ordinary circumstances to obtain a decent place to live at a reasonable price.

(3.) It is most difficult to get a good meal in the city of Miami, Fla., at any price. The land developers talk about raising any kind of vegetables on this "wonderful" soil, but we have been having a hard time to get a variety of vegetables to make a well-balanced meal.

(4.) I have been here for about eight months and it has been impossible to get an orange at a reasonable price. The lemons we have been paying 40 to 50 cents a dozen for would have been condemned in the average civilized community.

(5.) After we get our ice in the morning, standing in line and then trying to get our food for the day, we are all in and out to do a day's work.

(6.) Yes, it is true that workmen get good wages, but what good does it do them when they must pay it all out just to sustain life?

(7.) I believe the worst of the whole situation is the school system, as doubt controlled by the K.K.K. It is not a public school system as the northern understand it. Remorse the man purpose and the welfare of the child secondary.

I dislike very much to write this, but having been requested to do so, I submit, it is proper if it is truth. Yes, investigate. Send an impartial board and you will find out more. A MIAMIAN.

The Joneses

LOS ANGELES, Oct. 13.—(To the Editor of The Times:—) I note from your paper that our good friend, M. C. Jones, is puffed that the Bible is not taught in our schools.

This is, of course, a trite subject, but I wonder if it has ever occurred to Mr. Jones that perhaps it is barred because this country is operating very successfully under a Godless Constitution. Many do not know this. He should also know that the "Ten Commandments" is on our coins without authority and should be taken off, as incompatible with our Constitution.

He should also recognize the fact that there is no historicity back of the "Principles of Life." Not one word being found about Him in any contemporaneous history in the world and, there being not a scintilla of proof that He ever lived, it is more than likely that He is a place in our school.

Neither should any other religious cult be dragged in. The churches are numerous and costly enough.

Let the schools remain educational institutions. JASON F. JONES.

BOUNDARY WITHOUT A GUN

The unfortified boundary between Canada and the United States has impressed the world deeply. For 110 years peace has reigned along this 3000 miles of international line—not only peace, but justice and friendship. Were Detroit training guns on Windsor, were Buffalo fortified against Fort Erie, should we feel more secure? Decidedly not. It must have been in view of this experience that the Interparliamentary Union was so easily persuaded to recommend and promote the establishment of demilitarized zones along national boundary lines. This would mean no forts, no troops, no mobilization, no military practices whatsoever at national frontiers. The fighting line would be moved back far enough to keep the fighters and their equipment out of sight of each other. This would not abolish fundamental causes of war. It would prevent frictions, frontier squabbles and national suspicions which are a potent means of precipitating wars.—[Lincoln Journal.

From Bad to Worse

Fifty years ago the community was visited by a mild spread of "epitotic." Nowadays, in place of the "epitotic" we have the payment plan and the flat tire, the speed bug, the detour and the road hog.—[Lafayette Journal and Courier.

Peace With Tripoli.

by J. CARROLL MANSFIELD

OUR HISTORY IN PICTURES 239

IN 1805, THE PACHA OF TRIPOLI VINDICATED THE FURY OF THE AMERICAN SQUADRON HAD DONE ITS WORK AND, MEANWHILE, BAYONET AND HAMET HAD CONQUERED HALF THE COUNTRY.

A TREATY WAS MADE BY WHICH THE PACHA KEPT HIS THRONE BUT PLEDGED US PEACE WITHOUT TRIBUTE AND SET FREE ALL AMERICAN CAPTIVES HELD IN TRIPOLI. — HANET WAS LATER PRISONER OF THE UNITED STATES GOVERNMENT. —

OUR WAR WITH TRIPOLI WAS NOT A GREAT WAR BUT IT PROVED TO BE EXCELLENT TRAINING FOR MANY OF OUR NAVAL OFFICERS WHO LATER BECAME RENOWNED IN THE WAR OF 1812. — HULL, DECATUR AND RODGERS WERE AMONG THESE HEROES. —

IN 1815, STEPHEN DECATUR RETURNED WITH A FLEET TO THE BARBARY STATES AND DICTATED MORE FAVORABLE TERMS UNDER THE GUNS OF HIS SHIPS. — THE FIRST STEAMBOAT. —

These daily history strips make a unique pictorial history of America. Hundreds are clipping them daily and pasting them in scrapbooks.

OFFICER TO ANSWER IN AUTO DEATH

Policeman Who Drove Car in Which Divorcee Was Killed, Held by Court

C. R. Davis, police officer, was held to answer on a charge of manslaughter by Justice Wood yesterday in connection with the death of Mrs. Mildred Olive Wright. Mrs. Wright, beautiful young divorcee, was killed early on the morning of the 9th inst., when the automobile in which she was riding and which was driven by Davis, struck a telegraph pole at Sunset Boulevard and Mohawk street.

Date Set for Construction of High School

Work will begin November 1 on construction at the Los Angeles High School for which a \$125,000 building permit was granted by the Board of Education recently.

TWO INJURED IN TRAFFIC

Woman and Man so Seriously Hurt in Motoring Accidents That Both May Die

A woman struck by a hit-and-run motorist and a man employed in picking up lanterns on the streets, who walked from behind a street car in front of a moving auto, were treated for injuries at the Receiving Hospital yesterday morning which may prove fatal.

CRYER ASKS OBSERVANCE OF NAVY DAY

Proclamation of Mayor Gives Municipal Sanction to Celebration

Mayor Cryer yesterday issued a proclamation asking the people of Los Angeles to join in the national celebration next Tuesday of Navy Day. The Mayor's proclamation was as follows:

MOTHER SUES FOR CHILDREN

Hearing on Custody Plea Continued When Court Learns Father Has Taken Them Away

A statement that Dr. A. W. Olsen, said to be a Hollywood dentist, had taken his two children from the home of Mrs. William E. Littrell, 230 North Wilmington street, Watts, yesterday resulted in Judge Archibald continuing to Saturday morning the petition for a writ of habeas corpus brought by Mrs. Birdie Olsen, mother of the children, in an attempt to obtain their custody.

FAMILIES IN EARLY-HOUR FIRE ROUTED

Apartment-House Damage So Severe Residents Are Forced to New Quarters

Members of a dozen families were routed from their beds early yesterday morning by a fire which broke out on the top floor of a three-story frame apartment-house at 314 1-2 East Ninth street. Before the blaze was extinguished approximately \$10,000 damage had been caused.

SAN FRANCISCO

SOCIETY

BY JUANA NEAL LEVY

One of the delightful affairs of recent date was the miscellaneous shower and luncheon with which Mrs. I. N. Berkley entertained at her beautiful home on Montana avenue, Santa Monica, honoring Miss Martha Harper, whose approaching wedding will be one of the brilliant affairs of the last of October. Dahlias in gorgeous colorings and of varieties which recently won signal honors were used to decorate the various rooms of the house—pink and gold in the dining-room, and beneath the huge wedding bell of palest pink, which hung over the dining table, were tiny button pink blooms with delicate lavender edges, huge Chocolate Soldier ones of the deepest

crimson in the drawing-room, and in the other rooms were masses of lavender blossoms and deep orange beauty.

After luncheon, while the tables were being set for the game, the guests strolled in the spacious flower-blooming gardens, where gay profusion of autumn blossoms were riot, and during the mah jong game the hostess brought in a huge hat box of pink and blue frilly crepe paper, which housed the gifts for the slender young bride-elect, all manner of dainty gifts wrapped in white tissue and tied with narrow satin ribbons.

Those included were Miss Harper, Mrs. E. W. Harper, Miss Willo Pierce, Mrs. W. W. Dunn, Mrs. E. A. Pfeiffer, Mrs. E. C. Lucas, Mrs. A. A. Weber, Mrs. Ethelbert R. Maule, Mrs. D. G. Stephens, Mrs. Neil S. Dunlop, Mrs. Joseph G. Braun, Mrs. Harry Lane, Mrs. Lynn H. Case and the hostess.

From Honolulu
Among the visitors to Los Angeles this fall is Mrs. Augustus Edwards Murphy, one of Honolulu's most charming women and the popular hostess at the Moana Hotel. She is a guest at the Biltmore, coming from San Francisco Sunday. Mrs. Murphy is leaving for her Honolulu home aboard the Calawall tomorrow after a delightful two months in California, visiting the various points of interest in the north and south.

Enjoyable Affair
Mrs. Sylvia Nease of Oxford avenue entertained yesterday afternoon with a charmingly appointed luncheon in honor of Mrs. Gertrude Rose, who with her attractive young daughter, Miss Corinne, is leaving shortly for a year abroad, and also complimenting Mrs. E. F. Dodge of Chicago. Others included were Mrs. George H. Kress, Mrs. Edwin Kennedy, Mrs. Walter Henry Rothwell, Mrs. U. T. Clotfelter, Mrs. Edna Gunner Peterson, Mrs.

Every well-remembered cup brims with hearty cheer

Women's Danger

Of offending under the oldest hygienic handicap is ended this way

WITH the old-time "sanitary pad" women realize their constant danger of offense. And thus spend unhappy days.

"KOTEX," a new and remarkable way, is now used by 8 in 10 better class women.

It's five times as absorbent as ordinary cotton pads!

You dine, dance, motor for hours in sheerest frocks without a second's doubt or fear.

It deodorizes, too. And thus stops ALL danger of offending.

Discards as easily as a piece of tissue. No laundry. No embarrassment.

You ask for it at any drug or department store, without hesitancy, simply by saying "KOTEX."

Do as millions are doing. End old, insecure ways. Enjoy life every day. Package of twelve costs only a few cents.

KOTEX
No laundry—discarded like tissue

Diet and Health

By Lulu Hunt Peters, M.D.

Author of "Diet and Health" and "Diet for Children"

ANSWERS TO MOTHERS

God could not be everywhere; therefore He made mothers.—Jewish Proverb.

CANNED SPINACH
Mrs. J.—It has been found at a well-known university that canned spinach, when used in proper quantities, is capable of preventing scurvy. This indicates that the vitamin C, the scurvy-preventing vitamin, is not destroyed by the canning process. Tomatoes also retain this vitamin. So when fresh tomatoes or spinach are not available you can give your family the canned.

CANKER SORES
Mrs. R.—Little canker sores in the mouth are not necessarily indications of ulcers in the stomach. Intestinal ulcers, especially in children, may cause them. Children have been known to get canker sores from sucking on the "all-day" suckers that are flavored with strongly acid substances. Ulcers of the mouth may also be due to infections.

Life
Mrs. A.—The babe in utero begins to make movements at about four and one-half months. It may be more or less than this. It is usually spoken of as "kicks" being felt, although, of course, from the moment of conception, life exists. You need not be alarmed if after movements are felt, they cease for a few days at a time. It is not an unusual experience.

Pre- and Postnatal Care
(We have a list of modern books on child-feeding. Send self-addressed, stamped envelope with request.)

Tomorrow—A Letter
Dear Mother: When writing for material which to give you, I have remembered to include a letter to you. I have been thinking of you and of the many mothers who are so busy that they have no time to read. I have been thinking of you and of the many mothers who are so busy that they have no time to read. I have been thinking of you and of the many mothers who are so busy that they have no time to read.

Los Angeles Library School will hold its first social meeting of the autumn with a tea at the Women's Athletic Club on South Flower street, Sunday afternoon, the 28th inst., from 3 to 5 o'clock. Officers include Miss Gladys Caldwell, Miss Elizabeth Williams and Miss Alice Schick. Miss Haines of Pasadena will give an informal talk on enjoyable books of the year.

LAND CONDEMNED IN ARROYO SECO SECTION

The condemnation of 300 acres of land in the Arroyo Seco between San Pascual avenue and Avenue 35 for park and scenic-boulevard purposes, was authorized by the City Council yesterday. This action marks an important step in the city's efforts to remove the rock companies from the arroyo and to beautify this section of the city. The proposed park, land for some of which already has been obtained by purchase, is to be called Victory Park in honor of the men and women who served in American wars.

PLUNGE DOWN STAIRS FATAL TO JANITOR

Slipping on a piece of soap while he was sweeping a stairway in a hallway at 701 West Sixth street, Frank Lorenz, 33 years of age, lost his balance and somersaulted down the stairs. He died two hours later at the Receiving Hospital. The accident occurred yesterday morning. Lorenz was employed as janitor in the T. J. Lawrence Realty Company office at the above address. His home is at 432 West Seventy-eighth street.

Elinor Glyn is Optimistic... Always Glad to be in the Club

"Optimism, the virtue of maintaining a cheerful attitude in the face of adversity, is a quality which is essential to the success of a woman in the club," said Elinor Glyn, author of "The Sign of the Cross" and "The Sign of the Cross." "It is a quality which is essential to the success of a woman in the club," said Elinor Glyn, author of "The Sign of the Cross" and "The Sign of the Cross."

Eytan Returns From East Business

Charles Eytan, West Coast correspondent, returned to Los Angeles yesterday after a visit to the East. He was accompanied by his wife, Mrs. Eytan, and their two children. They were on their way to the East for a business trip.

Los Angeles Library School

Los Angeles Library School will hold its first social meeting of the autumn with a tea at the Women's Athletic Club on South Flower street, Sunday afternoon, the 28th inst., from 3 to 5 o'clock.

Halloween Dance

More than 200 invitations have been sent to the members of the younger set by Mr. and Mrs. George T. Edwards for a Halloween dance at the Le Bertha Apartments in honor of Miss Anna McNamara of New York City, who is passing the winter here.

At Home

Among the affairs of the day will be the afternoon tea with which Mrs. Florence Board Lawrence and her attractive young daughter, Miss Alice, are entertaining at their home, 1418 Sanborn avenue, Hollywood, the hours being from 4 to 6 o'clock.

Honor Guests

Honoring her daughter, Mrs. Samuel John McConnell, and her sister, Miss Bertha Lasurus Stern, who has just returned from a five months' trip through the East, Mrs. Abraham Balchold Cohen has issued invitations for a luncheon, mah jong and bridge party at the Mary Louise, Thursday afternoon, November 3.

Alumni Affair

The Alumni Association of the Los Angeles Library School will hold its first social meeting of the autumn with a tea at the Women's Athletic Club on South Flower street, Sunday afternoon, the 28th inst., from 3 to 5 o'clock.

University of the Pacific

The University of the Pacific, located in Stockton, California, is a member of the Association of American Universities. It is a member of the Association of American Universities.

Interest to Women.

NEWS OF THE CAFES

Mrs. F. E. Zucca, owner of the Zucca Inn in North Spring street, includes in her list of entertainers Louise Walker, who dances the famous "Frisco" dance, and Ted Laddford, baritone singer.

Mrs. Zucca delights her patrons frequently by singing for them.

Gus A. Retinger, formerly of the Ambassador Hotel and of the Montmartre Cafe, now greets you at the door of the popular Mrs. Zucca Inn.

A dance contest in which the winning couple of that contest will be presented with a silver loving cup will be staged this evening by Fred Sutton in the Cafe which bears his name in Los Angeles street.

Italian Village Cafe patrons are manifesting their increasing approval of Miss Rene and Joe Moreno, who perform there daily in their famous Apache Dance number.

The management of the Italian Village Cafe, which is in West Eighth street, is preparing for a mammoth Halloween celebration. Balloons, fireworks, and other novelties will play a part in the festivities.

Members of the Santa Monica Boulevard School P.T.A., corner Santa Monica Boulevard and Van Ness avenue, are completing plans for a Halloween party to be given at the 10th inst. at 7:30 p.m. in the school.

In addition to the program, many novel features will be introduced. The country dance program, which was given by Opaki and Mrs. Roy Gordon, will be one of the main attractions. The following ladies will have charge of the various dances: Mrs. J. F. Bourne, Mrs. W. Crow, Mrs. J. Goldberg, Mrs. J. H. Lewis, Mrs. M. A. Fritz and Mrs. J. L. Lewis.

Smith and Mrs. C. P. Schenck; Mrs. M. H. Shurr, Mrs. E. J. Jacobson, Mrs. J. C. Tewe and Mrs. J. W. Skinner and Mrs. M. P. McLeod; refreshments will be served by Mrs. J. C. Tewe and Mrs. J. W. Skinner.

The public is invited to the party.

The LAST WORD

By ALMA WHITAKER

THE WIDOWS PROTECTIVE LEAGUE

The founder and president of the Widows Protective League has written me an indignant letter for not being in complete sympathy with the published methods of its conduct.

She is annoyed because several newspaper writers have poked a little fun at them—specifically for arraying themselves in a court of law during the trial of a man and butting into the proceedings.

And so "Buttes of ancient India" is still practiced in the world, figuratively not in fact. There seems to be an unwritten law to show no mercy to widows. Many of us invent a fictitious husband and are handicapped in dress and deportment. And they do seem to be cherishing a persecution complex.

I, too, as the president reminds me, was once a widow for six years. But I certainly never recalled that I was specifically the butt of scoundrels and crooks there. No more glamorous schemes for defrauding my widowhood than at any other time. Nothing was ever cooked up for my benefit that is not also imposed upon married women, or even widowers and married men, if we can be induced to fall for them.

COULD PROVE VALUABLE

I can see where a widows' protective league, through which widows are coached in legal matters and in knowing how to care for their property can be a very good thing. Just as it is good for anyone else who has any property to administer.

But I can also see where the dramatizing of widowhood and the

GIMME UKE MEANS BEER, SAYS AGENT

Witness Avers "T-Bone's" Drinks Respond to Names of Musical Instruments

Drinks in "T-Bone Riley's" restaurant at 113 West Fourth street were known by the names of musical instruments, Paul R. Hooper, a Federal dry agent, testified yesterday before United States Commissioner Turney.

"We went in the place and ordered a couple of ukeleles," he said. "and they served us a beer. Then one of the boys ordered a piano and got gin. When we discovered, was obtained by calling for a saxophone."

Commissioner Turney held Frank Hooper, one of the owners of the place, and James Larson, a waiter, for the action of the higher court. The commissioner issued a warrant for "T-Bone Riley," whose real name is Clyde Van Hoes, and Attorney Warren Williams agreed to produce him Monday when "T-Bone" comes back to town. The restaurant was raided also in August and Van Hoes and another man were arrested, but he was not present when the last raid was made the 6th inst.

Theft of Love Charged in Suit for Separation

Fred Lee Nelson, reputed well-to-do real estate broker, was made defendant in a suit for separate maintenance filed yesterday in Superior Court by his wife, Mrs. Ines R. Nelson, who also instituted an action for \$25,000 damages against Jane Harding for asserted alienation of the affections of Nelson.

Mrs. Nelson stated in her separate maintenance action that she and Nelson were married April 15, 1924, and separated September 19, 1925. She charged desertion and failure to provide. According to her complaint, which asked \$500 a month temporary maintenance and \$25,000 permanent, Nelson enjoys an income of from \$25,000 to \$30,000 a year.

In her alienation action, Mrs. Nelson charged that Jane Harding induced the real estate man to leave his wife, September 19, last.

Mrs. Nelson also filed an action against her husband asking for an accounting of community property and sums she declared she advanced him out of her separate estate. All the complaints were prepared by Attorneys Page, Nolan, Rohs and Hurt.

Shredded Wheat A FULL MEAL IN 2 BISCUITS

You can pay more for lots of things than you pay for SHREDDED WHEAT, but you won't get more real food value for your money.

WOMAN SUSPECT IN PAYMASTER HOLD-UP

PAIR JAILED IN ROBBERY OF PAY ROLL

Girl Accompanying Man Also Held as Suspect in Bread Company Hold-up

Accompanied by Lillian White, 21-year-old stenographer, Troy D. Carson, 25, a salesman, went to jail yesterday morning as a suspect in the hold-up of W. L. Lynes, paymaster for the Davis Standard Bread Company on the 10th inst.

Carson stoutly denied any guilt in the matter. Detective Lieutenant Hall, who made the arrest, stated that Carson was the driver of the car in which the robbery was committed.

Further investigation of the case is being conducted by the police.

Carson was arrested on a charge of robbery.

Carson was married to a woman in 1914, and later to another woman.

SWISS SEEK LOCAL COTTON

Mill Operator Comes to Look Into Possibilities of Buying Long Staple Here

Long staple cotton produced in Southern California is attracting the mills of Switzerland, according to Erich Lang of Zofingen, Swiss cotton-mill operator, who is in Los Angeles to investigate the advisability of importing California cotton into his home country.

"The cotton manufacturing industry is the second largest in Switzerland," said Lang. "We use a considerable amount of long staple cotton for our better fabrics and up to this time we have obtained the raw material from Egypt. Most of the other cotton varieties we import from South America, and it would be of some advantage if we could get our long staple in this country also. The only thing that would bar its

importation would be high transportation costs and this is one of the things I will investigate here."

The Swiss visited the cotton mills in the East before coming to Los Angeles and drew some comparisons between the industry as carried on in Switzerland and as it is conducted here.

"I had expected to find the machinery in the New England cotton mills of a more advanced type than the machines we use at home," he said, "but discovered that there is but little difference."

Lang stated that the wages of the Swiss cotton-mill employees are about the same as those paid in the American cotton mills. "This gives our employees an advantage because the cost of living in Switzerland is not so high as in the United States. I have been surprised at the high prices charged for everything in this country."

FLAT FEET, SOFT BRAINS, ADIEU

Vienna Professor Says Charleston Dance Will Cure Them; Also Prevent Falling Hair and Hardening of Arteries, if Indulged in Without Undue Exertion

Flat feet, hardening of the arteries and softening of the brain may be prevented by a reasonable amount of indulgence in the jassy Charleston dance, declares Dr. Otto Ott of Vienna, physical culture expert, who is visiting this country to study the methods by which America develops so many athletic champions.

Dr. Ott, who is at the Ritzmore, made this assertion in commenting on a newspaper article in a local paper in which a Norwegian physician was quoted as saying that the Charleston causes

serious results. "There is no foundation for such a statement, provided the dancing is not carried to excess," said Ott. "On the contrary, I should say that the physical exertion connected with dancing the Charleston constitutes a high type of exercise."

"Naturally it accelerates the heart action. But this speeds up the circulation and thereby pumps up the whole body. It is especially beneficial to the brain, the extra blood clarifying the mental processes and proving a sure preventive of the deterioration of cerebral fibers that sometimes terminates in

softening of the brain. It also stimulates the growth of the hair. So far as the circulatory system in general is concerned, the rapid coursing of the blood through the arteries keeps them elastic and thus prevents their hardening. The exercise strengthens the muscular system, especially the muscles that keep up the arches of the feet. A Charleston dancer will never suffer from flat feet."

ASK CHANGE IN NAME
The changing back of the name Anderson street to Utah street, the original name of the street, has been asked of the City Council in a property owners' petition filed at the City Hall.

STREET LIGHT ASKED
The Lincoln Heights Commercial and Industrial Association has asked the City Council to install a street light on Avenue 18 between Humboldt street and Pasadena avenue.

The Plaza and some of the homes in Malaga Cove, View from Via Del Monte

See Palos Verdes!

The most Picturesque Residential Community in Southern California! Superb view~Ocean and Mountains, Golf Club, Bridle Trails, and many exclusive features~all utilities installed

The City Beautiful~ready for you Now!

YOU might search the entire length and breadth of wonderful California and not find a place so fortunate in either its beauty of location and climate, or its completeness as a residential community.

To begin with, Nature herself endowed Palos Verdes with some of California's finest ocean views—of silver beaches stretching for miles into the purple distance. Here also are mountain vistas extending, range on range, from Santa Monica to the snow-tipped Sierras. Busy valley cities are spread over the flat lands at your feet, while all around you on the sloping hillsides of this romantic domain, are numberless canyons, mesas, knolls—each with its "private view"—ideal spots for the homes of those who love the blue of ocean and the warm grey tints of the mountains.

Master builders, indeed, are the builders of Palos Verdes! Every foot of development, every individual dwelling, every piece of construction has been made to conform to surrounding beauty. Nothing that Nature gave has been lost. Nothing unsightly or undesirable will ever have a place in Palos Verdes. It is in very truth The City Beautiful.

Come today, or come Sunday—you will not be placed under any obligation whatsoever.

WE ARE ANXIOUS FOR YOU TO SEE PALOS VERDES—See it today!—it will tell you its own story!
